

Summer Programming FAQs

What summer programming is offered this year?
There are 10+ programs offered to students in grades K-12 by the school district this summer. Please consult the parent guide , for more information about which program best fits your student's needs and eligibility in order to register.
Why should my student participate?
Programs are designed to prevent learning loss and ensure continued academic enrichment for eligible students in grades 3 - 7, promote successful transition in the critical years from middle to high school, and from high school to postsecondary for grades 8 - 12, and Support Newcomer English Learners and Special Education Students K-12.
Who can participate in summer programming?
Participation is based on each program's eligibility. Please check each program's description for additional information.
When does summer programming begin?
Start dates vary. The majority of summer programming begins at the end of June. Programs last between 4 - 6 weeks.
Does my child need access to technology to participate?
Yes. All summer programming is offered virtually and requires access to technology unless noted by the program. Need help with your District-issued Chromebook? Or haven't picked one up yet? Go to https://www.philasd.org/coronavirus/chromebooks/
How do I register my child for summer programs?
Each program has their own registration process. Please consult the parent guide for more information about which program best fits your student's needs and eligibility in order to register.
Who can I contact if I have more questions?
Each program's contact information is listed in the parent guide . You may also reach out to your child's principal or teacher for more information or call the main SDP hotline.
