Important Notes:

For Commercial plans the administration of COVID-19 vaccine is eligible for reimbursement consideration as a preventive service when the U.S. Food and Drug Administration (FDA) Emergency Use Authorization (EUA) criteria for the COVID-19 vaccine are met. According to the Centers for Disease Control and Prevention (CDC), the COVID-19 vaccine will initially be distributed to health care providers at no charge. Therefore, additional reimbursement for the COVID-19 vaccine will not be provided by the Company. Only payment for the administration will be eligible.

For Medicare Advantage plans, the cost of the COVID-19 vaccine and its administration will be covered by Original Medicare rather than by their Medicare Advantage plan, so long as the health care provider administering the vaccine participates in the Medicare program (the healthcare provider does not need to be in the Independence network). This is in accordance with CMS guidance and will be paid by Original Medicare. All claims for the COVID-19 vaccine and any associated costs must be submitted to Original Medicare.
