

January 2019

Dear Parents and Families of Penn Treaty School,

I am writing to share information about an exciting investment happening in our school.

Our school will receive \$1,279,000 in upgrades to our elevators. We are looking forward to having the added safety and convenience these upgrades will provide.

This is an exciting and welcome safety upgrade for our school. The work will be carried out during the day by EJ Electric. A Project Manager from the School District will be assigned to supervise the contractor to ensure minimal disruption to the school day.

I will notify you when the work is complete. For more information on our project visit our website at www.philasd.org/capitalprograms/programsservices/construction/capital-projects/.

Thank you for your patience as we continue our mission to provide a safe learning environment for our children.

For questions, please send an e-mail to CapitalPrograms@philasd.org or call 215-400-4730.

Best,

Samuel Howell
Principal, Penn Treaty School
