August 02, 2019

Dear Sheridan Elementary School Community,

As a part of the School District of Philadelphia’s effort to provide students and staff with safe, accessible and appealing drinking water, 15 water outlets at your school were initially tested for lead on April 30, 2019 and May 02, 2019. Of those outlets, 13 outlets produced water that was below the action level of 10 ppb. Two (2) water outlets were found to have results above the water safety threshold and these outlets were immediately shut-off.

Below outlines the confirmed corrective action steps that were taken for those five water outlets that tested above the action limit.

<table>
<thead>
<tr>
<th>Sample Date</th>
<th>Floor</th>
<th>Outlet Number</th>
<th>Outlet Type</th>
<th>Outlet Description</th>
<th>Lead Result (ppb)</th>
<th>MDL (ppb)</th>
<th>PQL (ppb)</th>
<th>Confirmed Corrective Action Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>04/30/2019</td>
<td>1</td>
<td>6</td>
<td>WF</td>
<td>In sink in RM 102</td>
<td>22.2*</td>
<td>0.3</td>
<td>1.0</td>
<td>Permanently removed water fountain. Made adjacent sink handwash only and applied sign.</td>
</tr>
<tr>
<td>04/30/2019</td>
<td>3</td>
<td>12</td>
<td>FT</td>
<td>In RM 310 center</td>
<td>78.5</td>
<td>0.3</td>
<td>1.0</td>
<td>Made handwash sink. Applied sign.</td>
</tr>
</tbody>
</table>

Notes:
AA = Above Action limit of 10 ppb
BA = Below Action limit of 10 ppb
MDL = Method Detection Limit
PQL = Practical Quantitation Limit
J = Result estimated below the PQL
< = not detected above PQL
ppb = parts per billion

Outlet Types:
WF=Water Fountain/Bubbler
HS=Hydration Station/Bottle Filling Station
FT=Faucet/Tap
FP - Food Prep/Pot-Filler/Kitchen Kettle
IM - Ice-Maker

*Denotes an outlet location that has not been in use (the outlet was temporarily turned on for testing).

The School District will test the drinking water at your school every five years and share the results through a letter and also post the results on the District’s website. If you wish to review the results from your school and for more information, you may visit the District’s website at: www.philasd.org/waterresults.

Sincerely,

Brian Joseph
Environmental Director
