   a. Yes, you can bid with several primes.

28. In terms of Resumes, how many project manager, assistant project managers, schedulers and cost estimators are you looking for?
   a. Resumes, at a minimum, should include key project managers for all phases of the work, representative field personnel and other support personnel the team would propose to work with the District. The Project Manager for the entire program must be the individual who will lead the effort.

   a. The intent of the district is to award to one firm; however, we reserve the right to select multiple.

30. Are you planning to build your program to have some type of mentorship program for MWBEs or GCs?
   a. The firms should tell us what they like to do in this area.

31. In the RFP, for the activities for the program manager was a reference to testing on the construction sites, what sort of testing are you looking for?
   a. You will have the responsibility to manage testing, whether we would ask you to directly manage the testing firms is yet to be determined.

32. How are you going to evaluate pricing? Will this be evaluated on an average hourly rate form the primes and all the people, or one solid price, if you are looking for one solid piece?
   a. We are asking for general information on what your billing rates are, how many people you see assigning over different categories, with an estimated total cost.

33. If we were to go in with this as a sub to the prime, would we as subs be precluded from submitting proposals for construction and design work that comes out in the future?
a. If it is covered under the $500 million bond, and if you win the proposal, then yes. If you propose and lose you are not precluded.

   a. Yes.

   a. No, but the current staff on the supplemental staffing will not be used on the projects under the $500 Million bond.

37. Will you be issuing the sign in sheet?
   a. Yes, we will be issuing it as part of the addendum.

38. Is it required to provide resumes for everyone that is on the org chart, or can we provide resumes for key personnel.
   a. It is not required to include resumes for everyone on the organization chart. Firms are encouraged to include more rather than less. Firms need to be able to ensure that the key personnel included in the proposal will be the personnel working on the project.

39. The city of Philadelphia requires LEED certification for buildings over 10,000 square feet, is that something the district will be following?
   a. This will be determined on a building by building basis. The proposer should show its capabilities to support any LEED certification process in design, construction and in submittal for the certification.

40. Are firms currently restricted from proposing on new work with the City of Philadelphia due to past administrative submission errors – not based on performance or quality of work – and will be in good standing with the City of Philadelphia after 12/31/19 - be able to be included as a team member on this proposal?
   a. As long as the firm is in good standing by the time of selection we are ok with this. However, please include information in your proposal about the nature of the issue, with information on the project involved and the dates of the work and restriction. Additionally, please include copies of all determinations made by the City with the date the restriction is removed.

41. Has SDP established an estimated annual value of the PM contract. Understanding this would help us determine how to best partner with MWBE subconsultants.
   a. No.
ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.

Thank you,
