# Options Refinement Study Area 1

## February 4, 2020

# Study Area 1 – Public vs. Private K-12 Enrollment

Data Source: U.S. Census Bureau.

# Study Area 1 – Where Catchment Students Go To School

Data Sources: 2019 Enrollment Projection Reports, 2019/2020 Student Information System.  
 Other Neighborhood schools include Renaissance Charters (Boundary-based Schools).

# Study Area 1 – Where Catchment Students Go To School – West of Broad Street

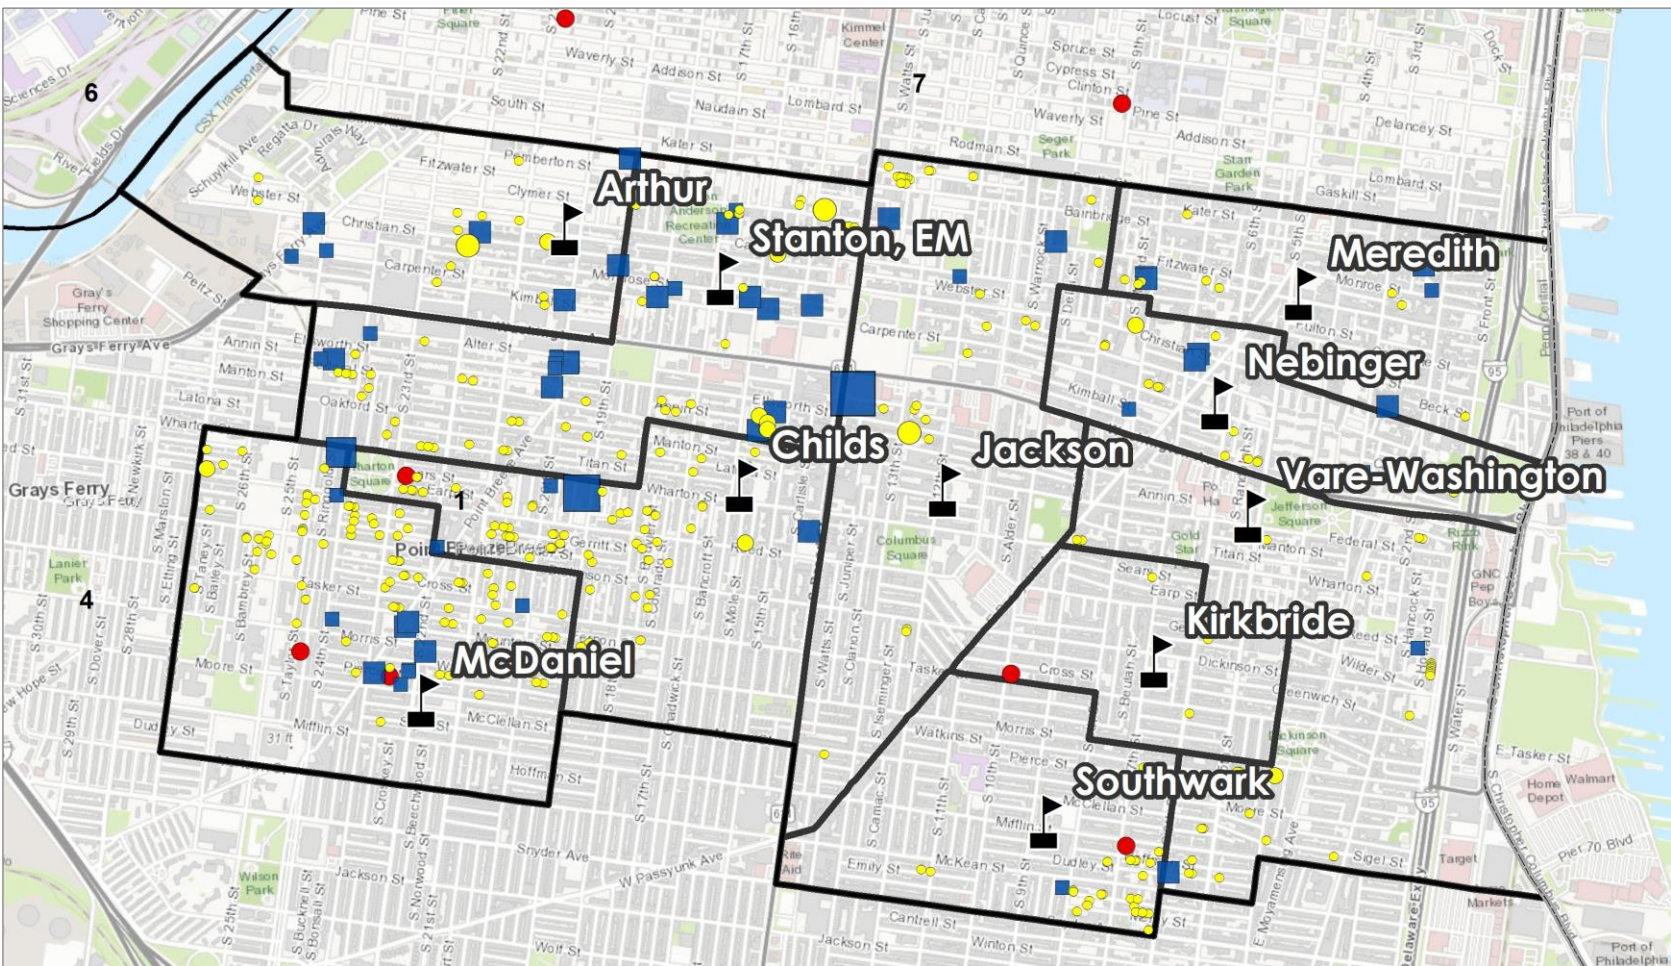

Data Sources: 2019 Enrollment Projection Reports, 2019/2020 Student Information System.  
 Other Neighborhood schools include Renaissance Charters (Boundary-based Schools).

# Study Area 1 – Where Catchment Students Go To School – East of Broad Street

Data Sources: 2019 Enrollment Projection Reports, 2019/2020 Student Information System.  
 Other Neighborhood schools include Renaissance Charters (Boundary-based Schools).

# Study Area 1 – 2014-2019 Residential Building Permits, No Certificate of Occupancy

**Single-Family Units**

**Multi-Family Units**

**2019 Demolition Permits**

Data Source: Philadelphia City Planning Commission.

# Study Area 1 – Forecast Indicator Summary

---

## **Assumptions - West Side of Broad Street**

- The population of public K-8 students residing west of Broad Street has steadily decreased since 2014, exacerbating low utilizations.
- We expect this trend to change, as high rates of construction (and vacant land) and real estate activity will yield growth.
- Unless measures are taken to increase capture, high transfer out rates from these catchments (residence) will cut into, but not negate, the growth as felt in the respective schools (attendance).

## **Assumptions - East Side of Broad Street**

- Conversely, the population of public K-8 students residing east of Broad Street has increased since 2014, contributing to high utilizations.
- Trends in construction permits, a low volume of vacant land, and slowing real estate activity point to stabilization.
- We therefore expect the neighborhood schools east of Broad Street to continue to have high utilizations with current catchment boundaries, but utilizations 3-5 years from now are expected to be lower than they are today.

# Study Area 1: Additional Background Information

---

- Sep 2003: Began leasing St. Charles (20th and Christian) as an Annex for **Arthur School** used to serve breakfast and lunch.
- July 2004: **Arthur** begins grade expansion from a K-5 school to a K-8 school, adding a grade each year.
- July 2005: **EM Stanton** begins grade expansion from a K-5 school to a K-8 school, adding a grade each year.
- July 2006: **Childs** begins expansion from a K-4 school to a K-8 school, adding a grade each year.
- July 2008: **Mc Daniel** begins expansion from a K-4 school to a K-8 school, adding a grade each year.
- Jul 2010: **Childs** building located at 1541 S. 17th Street (19146) closed. Program is relocated to the **Norris S. Barratt MS** building located at 1599 Wharton Street (19146). Schools are co-located for 1 year.
- Oct 2011: **EM Stanton** recommended for closure.
- Mar 2012: SRC votes to reject **EM Stanton closure**. School remains open.
- Jun 2013: **Smith Elementary School** closed; Students rezoned to **EM Stanton, Childs, Arthur** (1/3 each). EM Stanton expanded to include Smith catchment.
- July 2013: **Vare** building closed. Students and program merged with **Washington Elementary School**.
- Oct 2013: **Meredith** Annex/District Office located at 427 Monroe Street closed.
- 2016: **Southwark** selected as a Community School.
- May 2017: Sale finalized for Smith Elementary School.
- May 2019: Purchase of 4 classroom modular buildings for **Meredith** approved in the FY20 Capital budget.

# Study Area 1 – Utilization

Data Sources: Enrollment Projections Team 2010 or 2012 Scheduling Capacities, 2019/2020 Student Information System.

Other Neighborhood schools include Renaissance Charters (Boundary-based Schools).

Other schools include Charter, Citywide Admit, Special Admit or Other designations (Non-boundary Schools).

**WORKING DOCUMENT** for the purposes of discussion and deliberation

# Study Area 1 – Resident Student Information

---

**Attending Home Neighborhood School:** Students can be assumed to be captured since residing in attendance area and currently enrolled in that school.

**Attending Other Neighborhood School:** Students possibly to be captured if they decide to attend the school within the boundary that they live. They are currently enrolled at a neighborhood school or Renaissance Charter. Program options, or other recommendations, may draw these students back to their home neighborhood school.

**Attending Other School:** Students attending other schools (Charter, Special Admit, Citywide Admit, or other designations).

# Designing Schools to Meet SA1 Evolving Needs

## KEY ISSUES

- **Imbalanced enrollment across SA1 schools**
  - High utilization for schools East of Broad St. (and not enough space to accommodate in facilities)
  - Low utilization for schools West of Broad St., despite stable and growing student populations
- **Middle schools across SA1 lose students to other educational opportunities**
  - Despite heavy demand for PreK and K-5
- **Additional Considerations**
  - Impact of gentrification on school enrollments
  - Impact of immigration and student mobility on school enrollments
  - Perceptions of schools (quality, climate, safety, programs)

# Option Development– Study Area 1

## PRELIMINARY SOLUTIONS APPLIED...

OPTION		STATUS	COMMENTS
1.0	<p>A. Balance utilization through revised boundaries for SA1 schools - <b>Revised</b></p> <p>B. Seek programming alternatives for underutilized schools and enhance learning opportunities</p>	●	<ul style="list-style-type: none"> <li>● Concerns about loss of diversity</li> <li>● Be mindful of landmarks (Broad Street, etc.), walkability</li> <li>● Probably does best job of balancing enrollment, but not underutilization</li> <li>● Keeps K-8 model, families and their children together</li> </ul>
OPTION		STATUS	COMMENTS
2.0	<p>A. K-5 conversion for SA1 schools</p> <p>B. Identify suitable location for MS (6-8)</p>	●	<ul style="list-style-type: none"> <li>● <b>Imbalanced utilization across study area</b></li> <li>● New MS would need to accommodate <u>1,424 students</u></li> <li>● Decreases utilization at Kirkbride and Vare-Washington</li> <li>● Southwark has K-8 programs that would be compromised</li> <li>● Having all schools switch seems more uniform</li> <li>● Helps w/over-enrolled schools and helps to focus efforts of schools on early enrollment</li> <li>● K-5 developmentally appropriate</li> <li>● Too many students for one school, combining kids from all different neighborhoods which could have a potentially volatile impact on school climate</li> </ul>
