Study Area 3 – Forecast Indicator Summary

Assumptions

- Rates of private school participation in SA3 are significantly higher than for the district as a whole.
- In addition, rates of charter choice are significantly higher in SA3 than the district as a whole.
- Although the last two years saw declines, the 2019 count of public K-8 students residing in SA3 is higher than in 2014.
- However, SA3 neighborhood schools have not experienced this growth, due to increasing charter choice.
- With almost no new construction, and low rates of real estate activity, continued decline in enrollment at SA3 neighborhood schools is expected.
- If measures are taken to stabilize the increasing rate of charter choice, enrollment at SA3 neighborhood schools will likely either stabilize, or decline at a much slower rate.

Data Sources: Enrollment Projections Team 2010 or 2012 Scheduling Capacities, 2019/2020 Student Information System.

¹ 37 students from Bright Futures. ² Students from Federal Head Start.

Other Neighborhood schools include Renaissance Charters (Boundary-based Schools).

Other schools include Charter, Citywide Admit, Special Admit or Other designations (Non-boundary Schools).

Study Area 3 – Resident Student Information

Attending Home Neighborhood School: Students can be assumed to be captured since residing in attendance area and currently enrolled in that school.

Attending Other Neighborhood School: Students possibly to be captured if they decide to attend the school within the boundary that they live. They are currently enrolled at a neighborhood school or Renaissance Charter. Program options, or other recommendations, may draw these students back to their home neighborhood school.

Attending Other School: Students attending other schools (Charter, Special Admit, Citywide Admit, or other designations).

Designing Schools to Meet SA3 Evolving Needs

KEY ISSUES

- **Low building utilization and declining enrollment across entire study area**
 - Cassidy, Gompers, Lamberton, and Overbrook ES
- **High transfer rates out and mobility**
 - Families choosing area charter schools (30-50% of students residing in catchments, depending on school)
 - High transfer out rate to Overbrook Educational Center (OEC), a special admit school

Designing Schools to Meet SA3 Evolving Needs

KEY ISSUES

- **Additional Considerations**

- Perceptions of schools (quality, climate, safety, programs)
- Walkability and safe corridors
- Lack of awareness of what programs and resources are available in order to attract and retain students (i.e., arts, music, playgrounds)
- SA3 schools are less likely to have academic electives due to low enrollment
