School District of Philadelphia Office of Environmental Management & Services 440 North Broad Street 3rd Floor – Portal C Philadelphia, PA 19130

Attention: Mr. Stephen Link

Reference: EPA RRP Oversight and Lead Dust Surface Wipe Sampling

Fell Elementary School,

900 West Oregon Avenue, Philadelphia, PA 19148

Criterion's Project Number: 212787

Dear Mr. Link,

Criterion Laboratories, Inc. (Criterion), was requested by the School District of Philadelphia's Office of Environmental Management Services (OEMS) to perform clearance testing following a paint stabilization project being performed by the School District Painters within various rooms at Fell Elementary School located at 900 West Oregon Avenue in Philadelphia, PA (the "School"). The stabilization was performed by School District Painters.

Criterion's EPA RRP and Dust Clearance Wipe certified inspectors, Mr. Jonathon McKinnon, Ms. Lauren Pickett, Mr. CJ Karoly, Mr. Mike Barth, and Mr. JaTear Gardener, performed oversite of the project. The inspectors performed visual inspections of all work areas. Once a work area had passed the visual inspection, the cleaning verification visual RRP wipe test was conducted. In child occupied areas, the inspectors also collected floor and windowsill samples and submitted them to Criterion's in-house laboratory for analysis by Flame Atomic Absorption Spectrophotometry (FAAS).

Analysis by FAAS of the post-cleaning wipe samples revealed concentrations of lead dust to be non-detected and below the United States Department of Environmental Protection Agency's (EPA) maximum allowable lead dust levels are $<10 \mu g/ft^2$ for floors or $<100 \mu g/ft^2$ for windowsills.

Philadelphia School District Mr. Stephen Link September 19, 2022 Page 2

As the damaged paint found during the initial lead assessment completed by Criterion in September 2020 was repaired, a lead safe certificate can be issued for this school. Please find attached a copy of the lead safe certificate.

If you should have any questions, please do not hesitate to contact me at 215-244-1300, extension 1033.

Sincerely,

Ian Forster

Project Manager

I an lors Co

FOR ADMIN USE ONLY:	

School Official Name, Telephone and E-mail Address

Philadelphia Department of Public Health Certification of School Lead Safe Status

By signing this certificate, I confirm that I have done a visual inspection of the areas where children have access, including contact surfaces where children store their equipment or materials, and confirm these areas do not have deteriorated lead-based paint. A certified risk assessor or lead dust sampling technician completed verification wipe tests in accordance with the EPA's RRP guidelines and confirms they meet the EPA's cleanliness standard. A certified risk assessor or lead dust sampling technician collected interior dust wipe samples in compliance with EPA regulations in work areas and confirms they did not contain lead contaminated dust in excess of EPA dust lead standards in Pre-K, Kindergarten, and 1st Grade classrooms as well as the restrooms, offices, cafeterias, gymnasiums, and auditoriums these children routinely occupy. This certificate is valid for 4 years from date of verification.
