Russell Conwell Middle Magnet School
Summer Letter**

I would like to wish everyone a fun and exciting summer break. I hope you and your family will share some special times and memories together.

Obviously this school year had some difficulties with the COVID-19 closure but our classes still moved on and we learned and explored interesting topics, such as; personal space, conflict resolution, body systems, 6 steps to decisions and making educated choices, family arrangements, flu/viruses/hygiene, and the most fun virtual Google Classroom workouts and games.

There are so many students that left such great impressions in my head this year and I love each and everyone of you. I will always remember our circle conversations, group cooperative activities, scooter race car formula one races, 2 homework assignments: October "Spooktacular Workout" and November-"Planks for Giving".

Please continue to always improve on your fitness and health for the rest of your lives,

**Yours truly,
Mr. Brookstein**
