Jeanette Morton, Special Education Teacher

Dear Parents and Guardians,

My name is Ms. Jeanette Morton and I will be your child's Emotional Support teacher. I am passionate to helping each student understand and appreciate their work. My goal as an educator is to guide your child toward academic success and to help build critical thinking skills. In order for your child to be successful in my class make sure he/she comes prepared to class. Homework is given every Monday and due that Friday, I would like the parents to participate in helping their children with their homework. I ask parents to make homework a top priority, provide necessary supplies and a quiet homework environment, set a homework time, give compliments and support, do not let your child avoid homework. Your help and support will not only make your child more successful in school but will introduce good study habits. With your help, I will provide your child with knowledge and skills to be successful in class. I am excited to work with you and your child. I will do my part to inform you when your child isn't working to his/her potential. School starts at 8:30am - 3:30pm after 8:30am the student will be consider late. You can contact me by email [jmorton@philasd.org](mailto:jmorton@philasd.org) during office hours 4:00pm -5:00pm if you have any questions or concerns.

Sincerely,

Ms. Jeanette Morton
