

WELCOME TO MATH INTERVENTION

I'M MS. CLERKIN

LEARNING is a true passion of mine. This is why I am so excited to work with you and your student this year! It's going to be an amazing year filled with opportunities to develop a deep appreciation for math. A strong education is rooted in relationships, open communication, and trust. So that we can start building those relationships, here is a bit about me.

I was raised in RALEIGH, NORTH CAROLINA where I graduated from Sanderson High School. I went on to attend the UNIVERSITY OF NORTH CAROLINA ASHEVILLE where I majored in Mathematics and Psychology. In June of 2018 I picked up my life and moved up here to Philly. During the 2018-2019 school year I received my Masters of Education in Middle Grades Math from TEMPLE UNIVERSITY while also working as a Teacher Resident for the SDP at Chester A. Arthur Elementary School. This led me to Gideon where I am going into my second year as the 5th-8th math interventionist.

At the beginning of each week, I will be sharing RESOURCES with you about what topics we will be exploring in class and suggestions on ways to elaborate on those topics outside of school. You may access this through my Virtual Classroom.

Below are some google forms I would like you to fill out about yourself (contact information) and your student.
