Historical Thinking Skills in APUSH:

The curriculum framework begins by describing the historical thinking skills that are central to the study and practice of history. These are organized into four types of skills: chronological reasoning, comparison and contextualization, crafting historical arguments from historical evidence, and historical interpretation and synthesis. Teachers should develop these historical thinking skills with students on a regular basis over the span of the course. The historical thinking skills provide opportunities for students to learn to think like historians, most notably to analyze evidence about the past and to create persuasive historical arguments. Focusing on these practices enables teachers to create learning opportunities for students that emphasize the conceptual and interpretive nature of history rather than simply memorization of events in the past

I.	1. Content & Sourcing
----	-----------------------

Analyzing Historical Sources & Evidence	2. Interpretation
II. Making Historical Connections	1. Comparison 2. Contextualization 3. Synthesis
III. Chronological Reasoning	1. Causation 2. Patterns of Continuity and Change over Time 3. Periodization
IV. Creating and Supporting an Argument	1. Argumentation 2. Evidence to support an argument

Thematic Learning Skills:

The framework presents a set of learning objectives, organized by seven major themes that describe what students should know and be able to do by the end of the AP U.S. History course. These represent the major historical understandings that colleges and universities want AP students to have developed in order to merit placement out of the introductory college U.S. history survey course. Students should use a range of historical thinking skills to investigate the thematic learning objectives.

Types of Assignments:

Reading Notes: Students must submit maintain a notebook of reading notes (either in outline or an alternative form) as they correspond with the chapters. Reading notes, if they are handwritten, may be used for reading quizzes. Notes (and quiz corrections) may NOT be shared with another student. Notes should be written legibly in ink (pencil will wear out over the course of the year).

Quizzes: Each reading chapter will can include quizzes with 5-10 questions. Quizzes are designed to help you gauge where you are weakest and strongest, and to help us measure the thoroughness with which you're approaching your practice and preparation.

Unit Tests: Each unit will conclude with a test that will include both a multiple choice segment and a combination of LAQs, DBQs, and/or ShAQs. Unit tests are comprehensive, including questions reflecting textbook readings, class discussions, film clips, and activities. Unit tests may not leave the room for any reason, but students are welcome to come in and review the questions or scores by appointment.

LAQs: Long Answer Questions (essays), will be assigned as part of tests and part of writing seminars. These are similar to the ones you saw last year in AP Euro, but they always test a Historical Thinking Skill.

DBQs: Document Based Questions are designed to help students become comfortable reading and interpreting primary and secondary sources and then using them to construct an essay expressing a coherent argument.

ShAQs: Short Answer Questions test your ability to succinctly explain or answer a historical question. These get right to the point, and don't allow for fluffing answers.

Cemetery Project: **Students will work in groups of 4-5 to complete a formal biographical research project on a person (male) who was alive during the 19th century and whose tombstone can be found in the Woodland's cemetery, a historical cemetery in West Philadelphia.**

Planning Guide:

***Please remember it is subject to change. Keep in mind you will need to stay on pace regardless of school closing, midterms, state testing schedules, field trips or extended absences.
