

Mayfair School PYP Programme of Inquiry 2018-2019

Grade	Who we are	Where we are in place and time	How we express ourselves	How the world works	How we organize ourselves	Sharing the planet
	<i>An inquiry into the nature of the self; beliefs and values; personal, physical, mental, social and spiritual health; human relationships including families, friends, communities, and cultures; rights and responsibilities; what it means to be human.</i>	<i>An inquiry into orientation in place and time; personal histories; homes and journeys; the discoveries, explorations and migrations of humankind; the relationships between and the interconnectedness of individuals and civilizations, from local and global perspectives.</i>	<i>An inquiry into the ways in which we discover and express ideas, feelings, nature, culture, beliefs and values; the ways in which we reflect on, extend and enjoy our creativity; our appreciation of the aesthetic.</i>	<i>An inquiry into the natural world and its laws; the interaction between the natural world (physical and biological) and human societies; how humans use their understanding of scientific principles; the impact of scientific and technological advances on society and on the environment.</i>	<i>An inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making; economic activities and their impact on humankind and the environment.</i>	<i>An inquiry into rights and responsibilities in the struggle to share finite resources with other people and with other living things; communities and the relationships within and between them; access to equal opportunities; peace and conflict resolution.</i>
K	Central Idea: Learning about ourselves helps us learn about others. Key Concepts: -Form -Connection -Perspective Related Concepts:	Central Idea: Location affects how we live. Key Concepts: -Form -Function -Connection Related Concepts:	Central Idea: Communities are connected in many ways. Key Concepts: -Form -Function -Perspective Related	Central Idea: Weather affects people, animals, and places. Key Concepts: -Form -Causation -Change	Central Idea: Patterns exist in literary texts and in the natural world. Key Concepts: -Function -Responsibility -Connection	Central Idea: People use available resources from their surrounding environment. Key Concepts: -Connection

	<ul style="list-style-type: none"> -Compare/Contrast - Human Relationships - Health <p>Lines of Inquiry:</p> <ul style="list-style-type: none"> -People have similarities and differences -Our actions affect living things -We have characteristics that make us who we are (physical/ emotional) 	<ul style="list-style-type: none"> -Culture and customs -Adaptations -Habitats <p>Lines of Inquiry:</p> <ul style="list-style-type: none"> -Family Traditions and customs are unique. -There are different roles and traditions around the world -Living things change to survive in their habitats 	<p>Concepts:</p> <ul style="list-style-type: none"> -Neighborhood -Community helpers -Individual roles <p>Lines of Inquiry:</p> <ul style="list-style-type: none"> -People in communities have roles to make the community work - Our personal stories help communities grow - It is important to appreciate what our community has to offer 	<p>Related Concepts:</p> <ul style="list-style-type: none"> -Cycles -Similarities and differences -Systems -Habitats <p>Lines of Inquiry:</p> <ul style="list-style-type: none"> - Nature effects living things - Climates around the world have similarities and differences to animals - Humans, animals, and plants have unique characteristics that help them survive 	<p>Related Concepts:</p> <ul style="list-style-type: none"> -Life Cycle - Planning/Sequence -Habitats <p>Lines of Inquiry:</p> <ul style="list-style-type: none"> -Patterns in life and literary texts -The life cycle -Our role/responsibility in taking care of our environment 	<ul style="list-style-type: none"> -Change -Function <p>Related Concepts:</p> <ul style="list-style-type: none"> -Weather -Habitat -Geography (maps/globes) <p>Lines of Inquiry:</p> <ul style="list-style-type: none"> -Resources that the planet offers us -The various ways resources are used -Different environments found around the world
1	<p>Central Idea: Learning and growing is a fundamental characteristic of humans that connect them to the world.</p> <p>Key Concepts:</p> <ul style="list-style-type: none"> -Change -Connection -Responsibility 	<p>Central Idea: People and events cause changes to happen over time.</p> <p>Key Concepts:</p> <ul style="list-style-type: none"> -Causation -Change -Reflection 	<p>Central Idea: There are many ways to develop and express attitudes toward others and the world around us.</p> <p>Key Concepts:</p> <ul style="list-style-type: none"> -Perspective 	<p>Central Idea: All living things go through a process of change.</p> <p>Key Concepts:</p> <ul style="list-style-type: none"> -Change -Connection -Causation <p>Related</p>	<p>Central Idea: Citizenship begins with becoming a contributing member of a community.</p> <p>Key Concepts:</p> <ul style="list-style-type: none"> -Responsibility 	<p>Central Idea: Survival depends on meeting the needs of living things.</p> <p>Key Concepts:</p> <ul style="list-style-type: none"> -Connection -Responsibility -Reflection

	Related Concepts: -Health -Needs -Balance Lines of Inquiry: - Sleep and physical activity are important parts of being healthy - There are similarities and differences in human and animal sleep cycles/habits - There are many different ways to take care of yourself	Related Concepts: -Evidence -Patters -Adaptation Lines of Inquiry: -The natural world inspires exploration and innovation - Culture create myths to explain natural phenomenon -Observations of the natural world can help us understand humans	-Reflection -Causation Related Concepts: -Communication -Relationships -Expression Lines of Inquiry: -Feelings lead to certain kinds of behaviors -There are appropriate ways of self-expression -All behavior has consequences	Concepts: -Communication -Thinking -Research Lines of Inquiry: -Properties of living organisms -Growth and life cycles of living organisms -Basic needs of living organisms	-Reflection -Causation Related Concepts: - Interconnectedness - Structure - Social Studies Lines of Inquiry: -What makes a community -How a community functions -How we are all contributing members of a community	Related Concepts: -Interdependence -Biodiversity -Initiative Lines of Inquiry: -Basic needs of living things for survival -Use of natural resources -How are actions affect Earth's resources
2	Central Idea: Many factors contribute to lifestyle and culture. Key Concepts: -Causation -Perspective -Change Related Concepts: -Geography -Weather -Diversity	Central Idea: Learning about changes from the past can help us make connections to the present. Key Concepts: -Perspective -Change -Connection Related 	Central Idea: Personal experiences help develop who we are and our individual stories. Key Concepts: - Function - Reflection - Perspective	Central Idea: All living things grow and change. Key Concepts: -Change -Function -Causation Related Concepts: -Life cycles -Adaptation -Habitats	Central Idea: There are many individual roles and parts that come together to form a community. Key Concepts: - Connection -Function -Responsibility	Central Idea: We all have the responsibility to preserve our planet. Key Concepts: -Connections -Responsibility -Form Related Concepts:

	<ul style="list-style-type: none"> -Currency Lines of Inquiry: <ul style="list-style-type: none"> -How location affects weather -How location affects culture - Cultural expression and diversity 	Concepts: <ul style="list-style-type: none"> -History -Influential individuals -Development over time Lines of Inquiry: <ul style="list-style-type: none"> - Technological advancement and how things change -How the past influences the present -How people from the past impact us now 	Related Concepts: <ul style="list-style-type: none"> -Narrative stories -Cultural expression -Writing Lines of Inquiry: <ul style="list-style-type: none"> -How people tell stories in different ways - Shared personal experiences -Writing your own story 	Lines of Inquiry: <ul style="list-style-type: none"> -Living organisms respond to change -The environment affects living organisms -How our actions affect the world around us 	Related Concepts: <ul style="list-style-type: none"> -Roles -System - Interdependence -Perspectives -Diversity Lines of Inquiry: <ul style="list-style-type: none"> - A community is made up of many parts - There is interdependence within a community (goods and services) - Our responsibility as a community member to care for nature and the physical world around us 	<ul style="list-style-type: none"> -Interaction -Recycling -Multiple perspectives Lines of Inquiry: <ul style="list-style-type: none"> -The actions we can take to protect the earth -The importance of preservation and conservation -We are all entitled to our own opinion regarding how to best care for our earth
3	Central Idea: Experiences and beliefs shape a person's actions. Key Concepts: <ul style="list-style-type: none"> -Perspectives -Causation 	Central Idea: A global awareness develops by analyzing ancient civilizations.	Central Idea: Knowing a person's point of view enables us to discover and develop.	Central Idea: People use processes to understand and impact the world. Key Concepts:	Central Idea: Following a sequence and having organization are life skills.	Central Idea: Living things are affected by and adapt to the natural world. Key Concepts:

	<ul style="list-style-type: none"> -Reflection Related Concepts: <ul style="list-style-type: none"> - Beliefs - Opinions - Evidence Lines of Inquiry: <ul style="list-style-type: none"> -How our actions affect our lives? -Peoples' many and varied beliefs -The interconnectedness of beliefs and actions 	Key Concepts: <ul style="list-style-type: none"> -Perspectives -Causation -Reflection Related Concepts: <ul style="list-style-type: none"> -Consequences -Evidence -Opinions Lines of Inquiry: <ul style="list-style-type: none"> -How choices are influenced by geographical location -Learning how to be an internationally minded person -Speculating on your experience in a different country and its culture from today and long ago 	<p>awareness of other perspectives personally, educationally, and globally.</p> Key Concepts: <ul style="list-style-type: none"> -Perspective -Responsibility -Reflection Related Concepts: <ul style="list-style-type: none"> -Identity -Relationships -Acceptance -Good citizenship Lines of Inquiry: <ul style="list-style-type: none"> - What determines our point of view relating to people and how we live, work, and play together - The responsibility to share and accept various points of view 	<ul style="list-style-type: none"> -Form -Change -Function Related Concepts: <ul style="list-style-type: none"> -Similarities & differences -Sequences -Communication Lines of Inquiry: <ul style="list-style-type: none"> -Using a process to address a problem -Making observation and inferences to inform decisions -Questioning and reflection to make improvements through a process 	Key Concepts: <ul style="list-style-type: none"> -Function -Connection -Reflection Related Concepts: <ul style="list-style-type: none"> -Responsibility -Organizations -Communities -Structure Lines of Inquiry: <ul style="list-style-type: none"> - The purpose of sequential order in a variety of situations and circumstances - What makes a student in school and a citizen in the global community successful - How to solve problems using organizational strategies 	<ul style="list-style-type: none"> -Form -Connection -Causation Related Concepts: <ul style="list-style-type: none"> -Pattern -Systems -Relationships Lines of Inquiry: <ul style="list-style-type: none"> -Physical adaptations and behavioral adaptations that allow an animal to survive in their biome -Characteristics of the major Habitat/ biome -Connections between animals and the people in those habitats
