

January 10, 2020

Dear Mayfair Primary School Community,

The Office of Environmental Management & Services assessed Mayfair Primary @ Austin Meehan School's facility conditions and discovered mold in Room 425. As a result, the impacted areas were immediately closed for use by students and staff while they are being cleaned, and the classrooms were relocated to other areas of the building.

While this work is being completed, students will not return to those areas until the areas are fully cleaned. When the cause of the mold is clearly defined, repairs will be made by the Maintenance Department to prevent further moisture conditions from recurring.

The health of our students and the safety of our schools remains a top priority. To learn more about mold and what the District is doing to improve environmental safety, please visit the website at the bottom of this page. If you have any additional questions or concerns, please email environmental@philasd.org, or call 215-400-4750.

Sincerely,

The School District of Philadelphia
Office of Environmental Management & Services
