

Welcome

This school year is different but your feedback is still important. As you take the survey, think about what school has been like in the digital environment. For example, when you see “your school,” think about all the teachers, administrators, staff, and students you interact with. If you are still unsure how to answer a question, you can leave it blank.

Why are we asking you to complete the survey?

This survey is designed to gather feedback from teachers across the district about five key topics that are critical to school success: School Climate, Instruction, Leadership, Professional Capacity, and Parent/Guardian Community Ties. When most or all of the teachers at a school answer questions about these topics, we can get a valid and reliable measure for that school. This data can be used to identify strengths and challenges and set goals for improvement.

This is the case for the District as well; feedback from thousands of teachers on the same topics is a powerful way to answer questions like, “across the District, are we seeing positive trends in teachers’ perceptions of professional development?”

If you are interested in examples of how we use survey data, check out the [vignettes](#) on the District-Wide Survey Website. We also welcome you to explore our [District-Wide Survey Results page](#), where you can see how respondents answered each question every year since the survey has been open.

Things to know before you complete the survey

1) Completing it is voluntary.

2) **Your responses will not be used to evaluate you, your principal, or your school** . Rather, they will be combined with other teachers’ responses to help understand your school’s strengths and challenges and identify opportunities for improvement across the District.

3) **Your responses are confidential**. No one in your school will know whether you completed the survey or how you responded. When the data is shared, neither your name, nor any other identifiable information, will ever be connected with your responses. To protect confidentiality, survey data is not reported or displayed unless a minimum number of teachers at each school complete the survey.

4) Please complete this survey **ONLY if you are actively teaching students in a classroom (in person or digitally)** .

5) The survey should take about 30 minutes to complete. **Once you start taking the survey, you cannot pause and re-start** . If you are unable to complete it in one sitting, you may take it again. We will keep the most completed survey from each individual.

To enter the raffle for a chance to win a gift card, click the link on the Thank You page. The information you enter in the raffle is completely separate from your survey responses. The Thank You page will appear after you complete the survey and click DONE.

If you have any questions or concerns about the survey, please contact schoolsurveys@philasd.org.

Sincerely,

Office of Research and Evaluation
The School District of Philadelphia

Diversity, Equity, and Inclusion

As part of our commitment to becoming an antiracist organization, the following questions have been designed to assess the diversity, equity, and inclusion practices of our school district. We are asking similar questions of principals, teachers, school support staff, students, and parents/guardians. Your responses to these questions will be used to define areas of strengths and opportunities for change.

By *diversity*, we mean differences among groups of people and individuals based on ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion, sexual orientation, and geographical area.

By *equity*, we mean perceptions of the quantity and quality of equity-focused policy, practices, and opportunities available for members of our District community that address issues of disproportionality.

By *inclusion*, we mean the extent to which stakeholder groups feel valued by, connected to, and involved as a member of the school community.

23. How often do the following happen?
