

THE SCHOOL DISTRICT OF  
PHILADELPHIA

# 2020-21 Senior Exit Survey

## District Level Report

**October 2021**

**Contact: [seniorexitsurveys@philasd.org](mailto:seniorexitsurveys@philasd.org)**

**Office of Research and Evaluation**

# Overview: Survey Content and Purpose

- The Senior Exit Survey first launched online in 2014-15 and is administered annually each spring by the Office of Research and Evaluation (ORE).
- The survey is required by the Pennsylvania Department of Education (PDE) to be offered to all high school seniors in each district in the state. It asks students about:
  - Whether they are planning to pursue additional education, employment or other activities after high school
  - High school experiences and activities (including volunteering, internships and clubs)
  - Support received in preparing for college and career
- Respondents were also asked to volunteer their contact information (email and/or cell phone number) for the purposes of receiving follow up surveys (96% of those surveyed provided contact information)
- Overall, survey results were similar to the previous year (2019-20)\*. In those cases where there was a meaningful change, we have noted it.

\* The 2019-20 Senior Exit Survey report is located here: <https://www.philasd.org/research/2020/10/16/2019-20-senior-exit-survey-district-level-report/>

# Overview: Administration

- Open from May 4, 2021 to August 13, 2021
- During the administration window, some students and staff were physically in schools and some were virtual (due to COVID-19)
- Hosted in SurveyMonkey, with daily completion updates provided to high school counselors
- Students accessed the survey via a link via their student portal, which automatically imported student ID and school
- Counselors were primarily responsible for ensuring that students completed the survey and used a variety of strategies to connect with students and ensure completion
- SDP gave support with reminders, instructions, and suggestions for maximizing response rates
- Charter students were NOT included

# Overview: The Senior Exit Survey and COVID-19

- On March 13, 2020 SDP school buildings closed due to the COVID-19 pandemic and students and staff began the transition to remote learning. Throughout the 2020-21 school year, schools remained predominately virtual with few students able to engage in in-person learning.
  - In response to the COVID-related closures, additional questions were added to the 2019-20 Senior Exit Survey to better inform if and how senior's post-secondary plans were affected by COVID-19 and school closures. These questions were kept for the 2020-21 survey as well.
  - As in previous years, high school counselors were primarily responsible for ensuring that seniors completed the survey, often following-up with students individually via email and/or phone.
  - While working remotely, ORE provided daily updates to counselors as well as technical support throughout the administration window.

# Respondent Characteristics

5,518

completed responses from students with 12<sup>th</sup> grade status at 70 District High Schools, representing 63% of enrolled 12<sup>th</sup> graders\*

**\*Completed responses only include SDP students who reported post-high school plans.**

Students were included in the analytic sample if they met the following criteria:

- Enrolled in any District school for all 10 school days immediately before the start date of the survey AND exited after the start date of the survey. These students were attributed to the last school attended during this 10 day window
- If a student in this category took the survey at a school that was different from their 10-day window school, then:
  - If they were enrolled at the survey-school for at least 10 days, then their attribution was changed to the survey school.
  - If they are NOT enrolled at the survey-school for at least 10 days, then their attribution was unchanged, and remained the 10-day window school.

\*See Appendix for response rates by school.

# Representativeness

# What is Representativeness?

- In collecting and analyzing Senior Exit Survey data, it is important to consider the extent to which characteristics of survey respondents are representative of those of the larger population (all District seniors) to ensure that certain group's opinions are not magnified while others are understated.
  - In 2020-21, Senior Exit Survey respondents were relatively representative of District seniors, particularly those seniors who ultimately graduated from SDP at the end of the 2020-21 school year.
- Given the circumstances and changes surrounding COVID-19 and school closures, it is important to understand how representative 2020-21 Senior Exit Survey respondents were of all Seniors enrolled in the District when comparing year-over-year data.
  - 2020-21 Senior Exit Survey respondents were more representative of District seniors than 2019-20 Senior Exit Survey respondents.

Female students represented about half of all Class of 2021 District Seniors, but about 56.1% of those who took the Senior Exit Survey.

**Source:** Qlik Senior Exit Survey Application. Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey launched (May 4, 2021).

**Note:** Blue bars represent the overall percentage of Senior Exit Survey Respondents in each subgroup whereas green lines represent the overall percentage of District Seniors in each subgroup. Students with missing or unknown demographic information are included in the denominators.

Overall, disproportionality by race/ethnicity was minimal, similar to Senior Exit Surveys before the COVID-19 pandemic.\*

### Class of 2021

\* Reports for Senior Exit Surveys from previous years can be found at <https://www.philasd.org/research/category/surveys/senior-exit-and-follow-up/>  
**Source:** Qlik Senior Exit Survey Application. Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey launched (May 4, 2021).  
**Note:** Blue bars represent the overall percentage of Senior Exit Survey Respondents in each subgroup whereas green lines represent the overall percentage of District Seniors in each subgroup. Students with missing or unknown demographic information are included in the denominators.

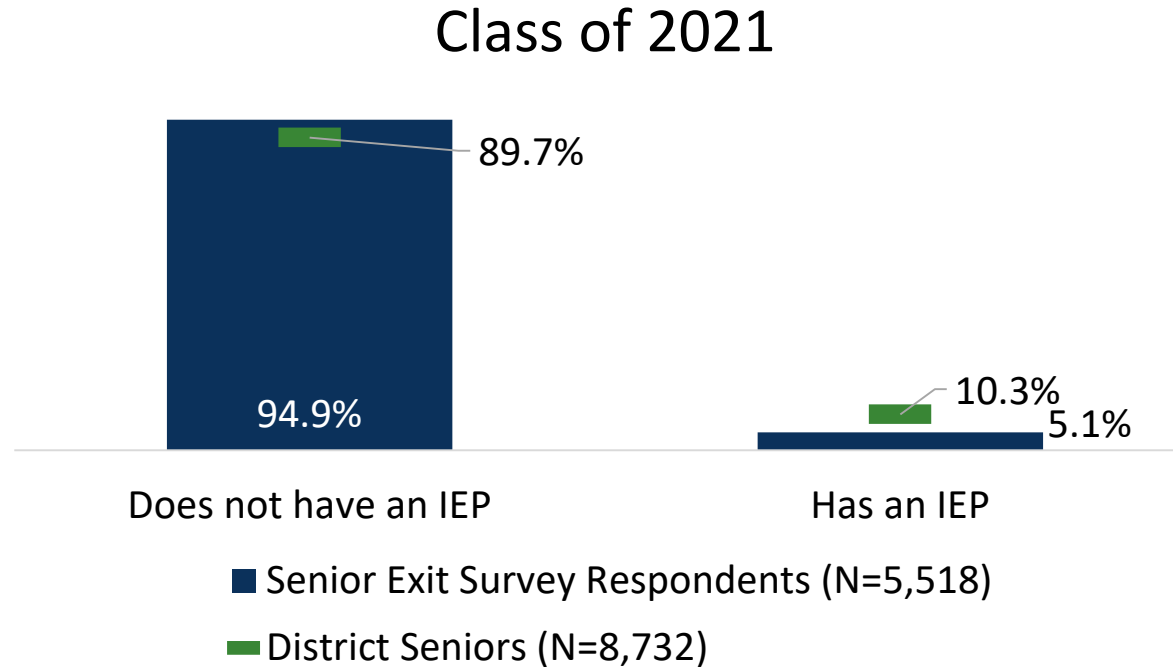

English Learners (ELs) were proportionately represented with 9.4% of Senior Exit Survey respondents.

**Source:** Qlik Senior Exit Survey Application. Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey launched (May 4, 2021).

**Note:** Blue bars represent the overall percentage of Senior Exit Survey Respondents in each subgroup whereas green lines represent the overall percentage of District Seniors in each subgroup. Students with missing or unknown demographic information are included in the denominators.

Students with an IEP made up about 10% of District Seniors but only about 5% of Senior Exit Survey Respondents.

**Source:** Qlik Senior Exit Survey Application. Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey launched (May 4, 2021).

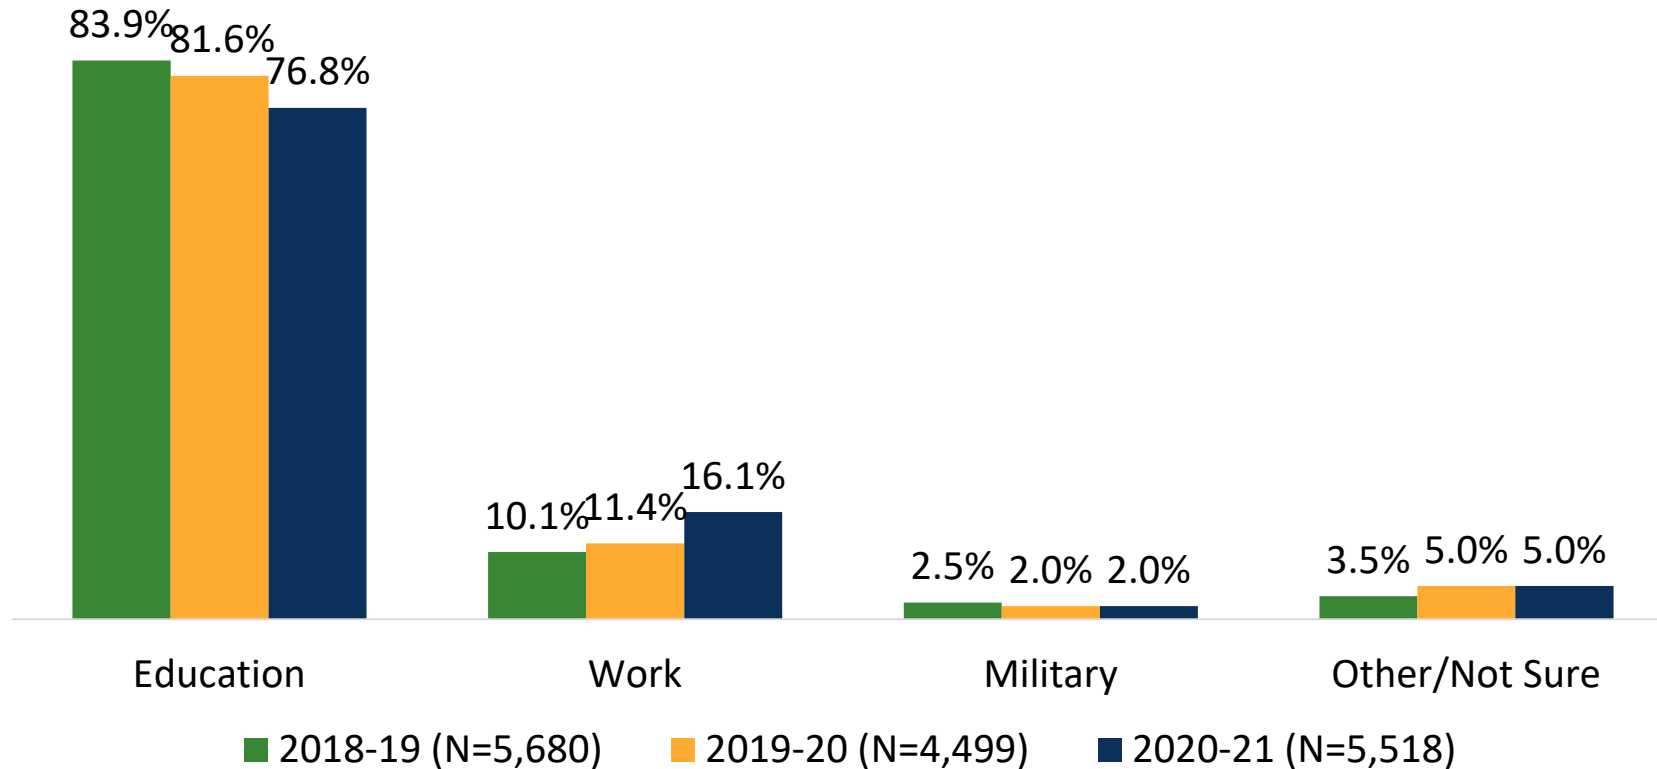

**Note:** Blue bars represent the overall percentage of Senior Exit Survey Respondents in each subgroup whereas green lines represent the overall percentage of District Seniors in each subgroup. Students with missing or unknown demographic information are included in the denominators.

# Summary-Representativeness

- For the Class of 2021, 63.0% of Seniors completed the survey (up 10.1 percentage points from the 2019-20 administration).
- 2020-21 Senior Exit Survey respondents were generally representative of District Seniors; and more representative than 2019-20 respondents.
- Compared to the full population of 2020-21 Seniors, 2020-21 Senior Exit Survey respondents were less likely to:
  - Be male (-5.3 percentage points)
  - Be Hispanic/Latinx (-1.9 percentage points)
  - Have an IEP (-5.2 percentage points)

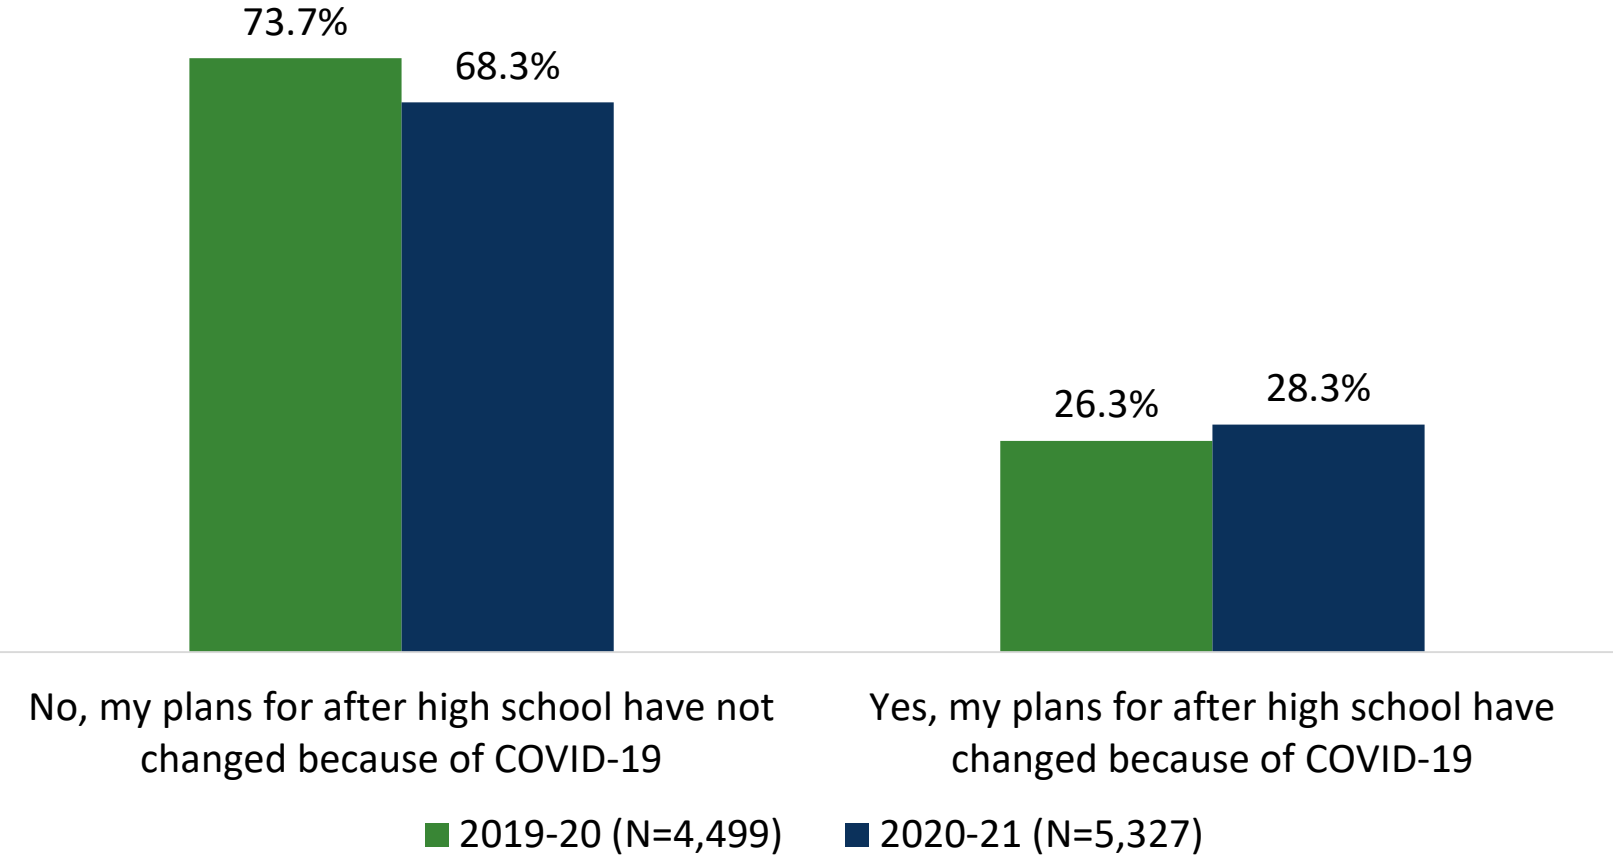

# Post-High School Intentions

During the COVID-19 pandemic,\* students intending to work rather than pursue post-secondary education has increased across all demographics.

\* We define the timeframe of the COVID-19 pandemic as beginning in March 2020 through the present, affecting the 2019-20 and 2020-21 Senior Exit Survey administrations.

# The COVID-19 pandemic continued to influence students' post-graduation plans.

For 2020-21 respondents, 12<sup>th</sup> grade female students were more likely to intend on pursuing post-secondary education compared to 12<sup>th</sup> grade male students (81.8% vs 70.4%).

Post-secondary Intentions by Student Gender (N=5,518)

For 2020-21 respondents, education intentions declined for all races/ethnicities but a lower percentage of Hispanic/Latinx students intended to pursue post-secondary education compared to students of other races/ethnicities.

Post-secondary Intentions by Student Race/Ethnicity (N=5,518)

For 2020-21 respondents, a lower percentage of English Learners (ELs) intended to pursue post-secondary education compared to non-ELs.

Post-secondary Intentions by EL Status (N=5,518)

For 2020-21 respondents, a lower percentage of students with an IEP intended to pursue post-secondary education compared to students without an IEP.

Post-secondary Intentions by Special Education Status  
(N=5,518)

# Education Plans

# Student Intent After High School Graduation

N = 5,518

56.9% of students who intended to pursue post-secondary education planned to attend a 4-year college or university.

### Plan to Attend...

N=4,238 (denominator includes respondents that did not list a specific type of school)

About one-quarter of respondents who intended post-secondary education intended to pursue a major in Health and Medicine and about one-fifth intend to pursue a major in Science, Math, and Technology.

N = 4,231 (denominator includes respondents that did not list a specific major)

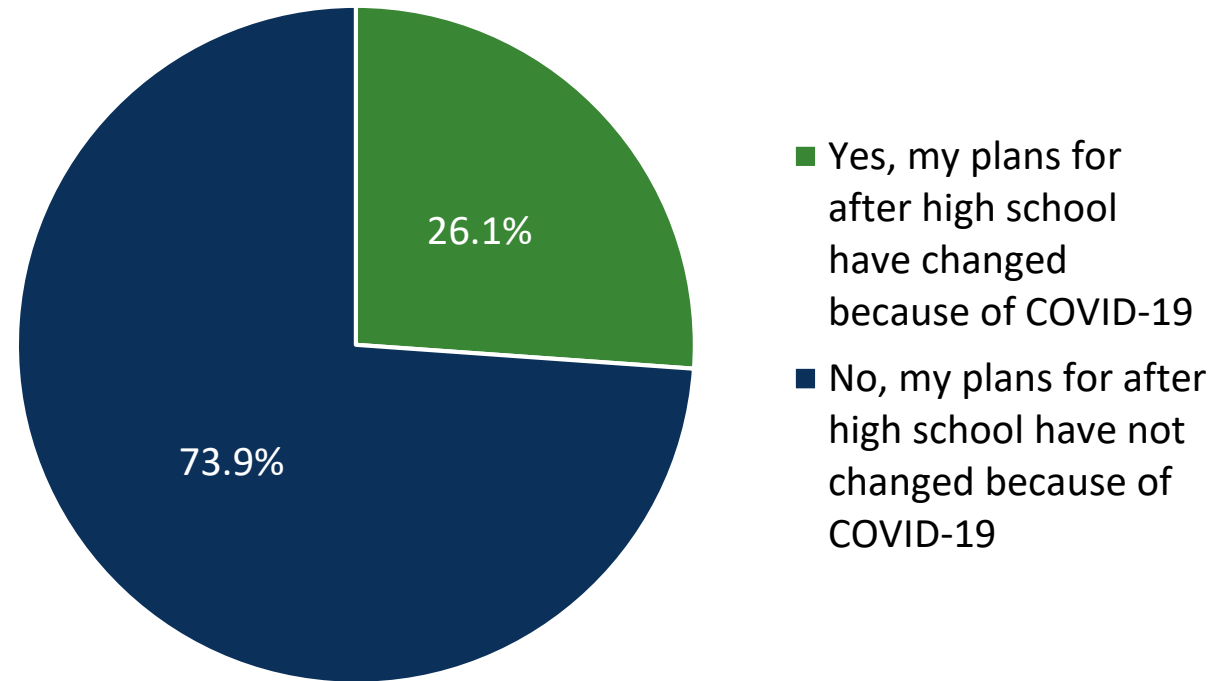

Nearly 80% of Seniors who intended education also intended to work (either full-time or part-time) while in school.

Do you plan to work while in school?

*Among Students Intending Education:* Please think back to just before COVID-19 began and what you were planning to do right after high school. Would you say your plans for after high school have changed because of COVID-19?

*Among Students Intending Education whose plans have changed:*  
 Which of the following statements describe the way your plans have changed because of COVID-19? (SELECT ALL THAT APPLY)

- More respondents changed their school (+10.6 percentage points) or major (+14.4 percentage points) than 2019-20 respondents while fewer are delaying school (-13.0 percentage points)

# Please tell us more about how your plans after high school have been impacted by school closures that resulted from COVID-19.

“I was gonna go to college but the application process was hard so I chose cosmetology.”

“I originally planned to go to college and major in graphic design but after spending a year and a half on online school I became frustrating with school entirely and became discouraged about attending college out of fear that it was going to be another year of online school. Online school has taken a significant toll on my mental health and am not looking forward to attending college if it’s the same as it was this year.”

“I was not able to attend the pre-med fast track program I wanted to get into at [local university] because I didn't take SATs, but every time I scheduled to take the test they would get canceled.”

“I was worried how COVID was going to affect my school year, I'm still trying to go abroad but the visa processes are slow right now so there's a chance my application won't get processed and I might have to stay in PA”

“I am going to college but am worried about money because my mother isn’t working due to Covid”

“Well I barely understood what needed to be done and barely got any help on it by anyone. Plus i was going through a rough time throughout quarantine and so it was hard to find the motivation to push myself to apply.”

“College has always just been the next step for me so I never truly considered any alternatives. However, I believe that the fact that I was unable to do my senior project and was unable to apply for some of the internships I wished to have made deciding my major harder; I had little to no clue of what fields appealed to me.”

“The college process was much harder. I felt like I had no clue what I was doing. My counselors helped a little with technical stuff and my mom helped with the FAFSA, but they use 2019 tax records- now there's a lot more competition for scholarships, and even though I've applied to them, I haven't won any contests. All in all though, this is pretty minimal compared to those who lost loved ones or can't go to college because of COVID damage. I'm still going to college, but I'm definitely going to be working a lot.”

# Work Plans

# Student Intent After High School Graduation

N = 5,518

# Type of Employment (Work Only, No School)

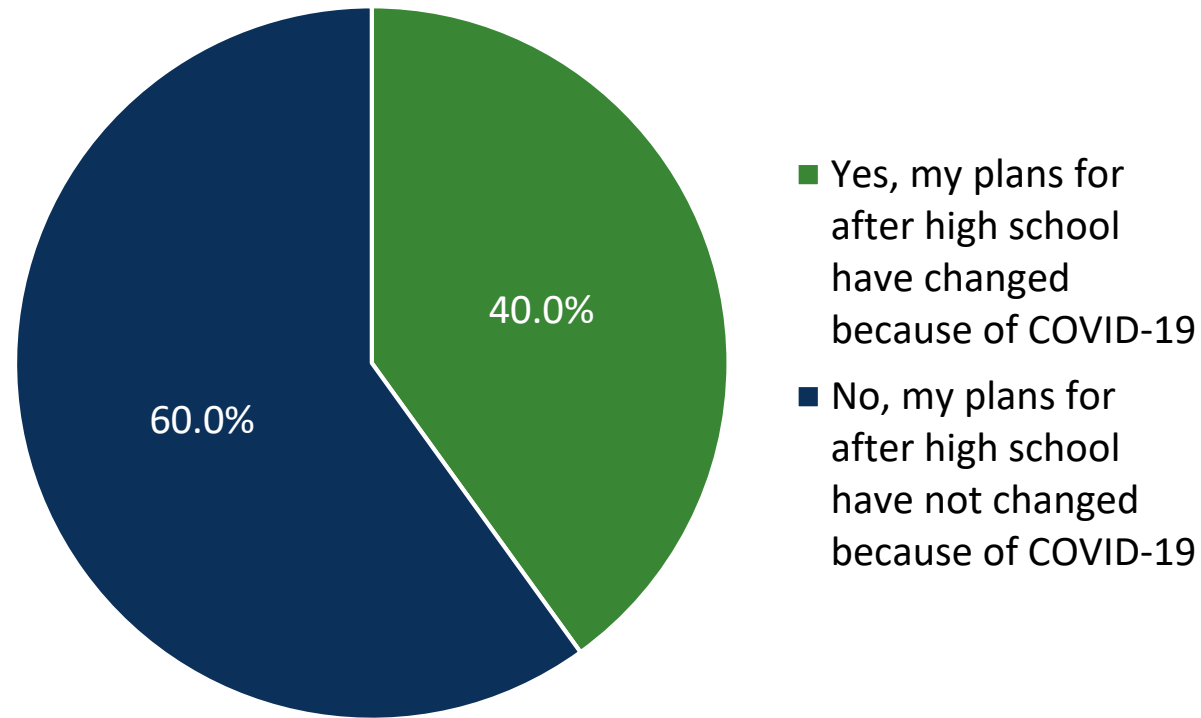

N = 892 (denominator includes respondents that did not list a specific type of employment)

# Student Intent After High School Graduation

Do you plan on working part-time or full-time?

*Among Students NOT Intending Education:* Please think back to just before COVID-19 began and what you were planning to do right after high school. Would you say your plans for after high school have changed because of COVID-19?

N = 1,216

*Among Students NOT Intending Education whose plans have changed:*  
 Which of the following statements describe the way your plans have changed because of COVID-19? (SELECT ALL THAT APPLY)

- More respondents (+7.3 percentage points) no longer plan post-secondary education compared to respondents in 2019-20

# Please tell us more about how your plans after high school have been impacted by school closures that resulted from COVID-19.

"I no longer plan on pursuing college until COVID is over. I don't like having my classes virtual."

"Mentally I do not feel ready to pursue additional education"

"as an English learner it impacted me a lot because I couldn't talk the way i wanted to talk with my teachers/counselor to help me"

"Some alternative jobs i had planned on taking before covid have proven to be riskful to work around, leaving me with less options and safe workplaces."

"Without the community aspect of school, I lost so much motivation, and with all the loss of events and normal teenage development, I lost a lot of my sense of competency"

"I didn't really have any influence from my peers and friends. I couldn't get a real idea on what I wanted to do. I feel like if I was near my friends I would had been more motivated and know what I might enjoy doing in the future."

"Before covid i was thinking about going to culinary school but after covid i decide to just work instead of going to culinary school."

"It impacted me a lot because I am selectively muted and it was hard for me to reach out and I am in the special ed of high school and I didn't have an idea what I wanted to do so my teacher was helping get past that fear."

"I just lost the interest to further my education in college, but after 6 months to a year I plan on becoming an engineering apprentice in the construction field."

"I truly feel like if school was open. I would have been able to graduate with no question. I had too much free time on my hands and I had health and mental health issues."

# CTE Graduates

# Career and Technical Education (CTE) Graduates

Do your post-high school plans (such as your job or intended college major) relate to your CTE program of study?

N = 1,103; only includes respondents who answered they are graduating from a CTE program

# CTE Graduates

Did you earn any industry certifications while in your CTE program?

# High School Experiences

# High School Experiences

Did you participate in any of the following?

N=5,518; Students could select multiple categories

# Internship Experiences

While in high school, including summers, did you participate in any internships, either paid or unpaid?

- “Asian American United”
- “Bartrams Gardens”
- “Bloomberg Arts Internship”
- “Bridges to Wealth”
- “Bright Solar”
- “Congreso”
- “Comcast”
- “Drexel”
- “GEAR Up”
- “Harcum Upward Bound”
- “Mutter Museum of Philadelphia”
- “National Parks Services”
- “Netter Center”
- “PECO”
- “PennRSSA”
- “Philadelphia Youth Network”
- “Phillies”
- “Red Cross”
- “Stepping Stones”
- “School District of Philadelphia”
- “St. Christopher’s Hospital”
- “Temple”
- “The Village of Arts and Humanities”
- “Upward Bound”
- “Vietlead”
- “WHYY”

...and so many more!

# Over 80% of respondents agreed or strongly agreed that adults at their school helped them with Applying for College.

Adults at my school (including counselors, teachers, support staff, and/or program staff), gave me help in....\*

\*Students who selected N/A are not included

Nearly 70% of respondents who completed Naviance tasks said that Naviance helped them apply for college, complete college applications, and explore various career options.

\*Students who selected N/A are not included

# Nearly half of all respondents said that the COVID-19 pandemic made applying for college somewhat or much more difficult.

To what extent, if any, have school closures related to COVID-19 impacted the following for you?

# The most important people helping me plan my life after high school were...\*

N=5,518; Students could select multiple categories

# Thank you to school staff!

- “I love my high school Paul Robeson Hs For Human Services, They made this virtual experience the best experience ever.”
- “My school has done a wonderful job of providing us with resources for getting into college. Even if I have not taken advantage of every opportunity, they have done a wonderful job.”
- “I wanna thank all my teachers and school staff for helping me grow into the person I am now and for helping me figure out my next few steps in life. Thank you to all the teachers at the Academy at Palumbo.”
- “I want to thank all the staff that helped me in all my four years. I truly appreciate everything you said and done for me.”
- “I'm going to miss high school. Thank you for all the laughs and memories that have helped make me who I am today. I'm going to miss my friends and amazing teachers!”
- “I'm happy that teachers took their time to help me through this school year. Thank you”
- “Thank you for everything”
- “This senior year especially helped me prepare for my career and college experience ahead, and I could never be more grateful considering the circumstances.”
- “Thanks SDP! I've been a student in the district since kindergarten and this district got me to where I am now (going off to university that I'm happy to go to). I am now really grateful for the education I've received that I may have taken for granted a few years back....”
