**A-4****Operating Budget: \$12,300,000 Contract Amendment with Kelly Services – Substitute Staffing and Management**

RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee to execute, deliver, and perform an amendment of Contract No. 0703/F16, originally entered into with Kelly Services, Inc. pursuant to Resolution No. A-35, approved by the School Reform Commission on May 19, 2016, by increasing the dollar amount of the contract by an additional \$12,300,000 from the \$42,000,000 approved in Resolution A-35, to an amount not to exceed \$54,300,000.

*Description:* Kelly Services, Inc. ("Kelly") will continue to provide substitute staff for Teachers, Counselors, Librarians, Classroom Assistants, Secretaries, Pre-K Teacher Assistants, Food Service Assistants, Student Climate Staff, and Support Service Assistants for The School District of Philadelphia (the "School District"). To support this work, Kelly will deliver a best-in-class substitute management system, and provide a customer support call center opening at 5 a.m. each school day for the School District's employees and administrators.

When the School District entered into this Contract, the School District anticipated fill rates of around 70%, but Kelly has surpassed this target with an average of 85% in SY 2017-2018. The School District pays Kelly per day per substitute, so the increased fill rate has raised the overall cost. This resolution will allow the School District to continue filling absences with Kelly substitutes through the end of the Contract term on June 30, 2018.

**Information Technology****A-6****Capital Fund: \$1,441,769 Contract with Comstar Technologies – Network Infrastructure Upgrades**

RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, to execute, deliver and perform a contract with Comstar Technologies, LLC, for network infrastructure upgrades at twenty-two school facilities, for an amount not to exceed \$1,441,769, for the period commencing February 16, 2018 through September 30, 2019.

*Description:* The School District of Philadelphia facilitates Internet connectivity for approximately 250 District-owned or operated school and administrative facilities supporting over 75,000 end-user computing devices as well as network-based telephone systems, surveillance cameras, and security/automation systems. Through a federal telecommunications program subsidy, the School District will undertake a multiphase project to upgrade and improve the technology cabling infrastructure in a combined total of approximately 120 school buildings. Upgrades will facilitate faster connectivity to computer laboratories, enhanced wireless access in isolated as well as high-density areas within buildings, and the installation of fiber-optic cabling to increase the performance of school-based local-area networks.

Phase 1 of the project will target upgrades at twenty-two (22) school facilities where federal subsidy allocations are currently available and where critical infrastructure needs have been identified: Anne Frank Elementary, Baldi Middle School, Bethune Elementary, Carnell Elementary, Central High School, Ethan Allen Elementary, Farrell Elementary, Forrest Elementary, Franklin Elementary, J.H. Brown Elementary, Juniata Park Academy, Masterman High School, Mayfair Elementary, McCall Elementary, Meredith Elementary, Moore Elementary, Morrison Elementary, Northeast High School, Rhawnhurst Elementary, Spruance Elementary, Sullivan Elementary, and Wilson Woodrow Middle School.

Proposal (RFP) to identify one or more telecommunications contractors to perform the low-voltage and fiber-optic cabling and related installation services required for Phase 1 of the project. Notice of RFP-568 was sent to several local telecommunications cabling contractors, was posted on the FCC's competitive bidding website, and was made available through the District's Procurement website. RFP-568 was available to prospective vendors for eight weeks and site-based surveys were scheduled at all 22 school locations to allow responders to visually inspect and to assess the scope of work required at each facility.

One responsive proposal was received from Comstar Technologies, LLC, of West Chester, PA. Upon analysis of Comstar's proposal for upgrades at each of the 22 school locations, the RFP evaluation committee concluded that the proposal fully satisfied all of the School District's requirements with favorable pricing at or below total estimated project costs.

Upon approval from the School Reform Commission, the District will be eligible to apply for FY2019 subsidies from the Federal Universal Service (E-Rate) program to support the funding of the contract with Comstar Technologies. As a result, the District's anticipated subsidy for this service would be 85% of the contract value. By agreeing to participate in the Universal Service program, Comstar Technologies is required by law to offer the Lowest Corresponding Price (LCP) for services that are otherwise made available to any similarly situated non-residential customer.

The Office of Information Technology canvassed both current District telecommunications contractors as well as specific vendors that downloaded the RFP solicitation, and that chose not to respond to RFP-568. Contractors generally cited the overhead and lack of comfort in participating in the federal E-Rate program, especially regarding the need to adhere to LCP costing provisions, in association with the relatively low margin and small scope of work required at each individual location.

4. An Integrated Assessment Platform for benchmark tests to classroom resources for teachers  
The Instructional Management System (IMS) is both content and technology-neutral, enabling the District to "plug-in" resources that target the needs of all stakeholders.

This comprehensive set of tools by Pearson is available to administrators, teachers, and employees, providing one-click access to District programs and student data. The successful adoption of the tools and resources has established this platform as a core foundational tool used in the delivery of instruction and assessment of student progress.

The IMS has:

- Enabled the District to be flexible as academic priorities changed delivering assessments and content from multiple providers.
- Provided reports and data-mining tools to support success for every student.
- Integrated with multiple District systems (i.e. Data Warehouse and the Student Information System) and 3rd party providers (i.e. Scholarchip, Pennsylvania Department of Education, CK-12, Standards Aligned System).

The IMS provides tools for administrators to facilitate:

- Informed decision-making based on timely access to data.
- Aggregate and disaggregated reports for school, grade, and classroom.

The IMS provides tools for teachers to enable:

- Identification of PA Core Standards aligned instructional resources matched to student data.
- Opportunities for professional development.
- Analysis of student data

The overall purpose of developing and implementing a supplemental benchmark assessments and teacher assessment resources is to provide data to teachers and schools that will allow them to more precisely target their instructional efforts to areas that are most in need, both at the student- and classroom-level. In addition, the benchmark assessments will be developed to align to the scope and sequence, which has been redeveloped to align with the Pennsylvania Core Standards.

**Finance****A-8****Categorical/Grant Fund/Operating Budget: \$297,000 Contract Amendment with Sherpa Government Solutions – Hosting of Budget Systems and Other Applications and Technical Support and Application Development**

RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, to execute, deliver and perform an amendment of Contract No. 707/F13, originally entered into with Sherpa Government Solutions, LLC, pursuant to Resolution No. A-11, approved by the School Reform Commission on February 21, 2013, as amended, to extend for one-year the term of the contract from its current scheduled expiration date of June 30, 2018 through June 30, 2019, for an additional amount not to exceed \$297,000 for the extended term, to provide hardware, software, and system support for the School District's budget development, management, and grant applications.

*Description:* The District is in the process of selecting, through a competitive process, a vendor to bring the District's existing Enterprise Resource Planning (ERP) system up to current standards to facilitate improved resource planning and management. The ERP system selected will have a fully integrated budget development module to replace the budget system that Sherpa Government Solutions currently provides to the District. It is essential to maintain the current budget system and the knowledge and experience provided by Sherpa Government Solutions as a new ERP system is implemented. Therefore, the District seeks to extend the current contract and budget system until such time that a new system can be implemented and fully functional.

Regarding the existing budgeting system, a competitive RFP process was completed in January, 2013. Two companies responded: Sherpa Government Solutions and Cognis IT. The proposal of the incumbent, Sherpa Government Solutions, was the lower by \$42,366 for FY14 and Sherpa was awarded a contract.

This resolution represents the continuation of critical budget development and management systems and is essential for Finance's ability to produce an annual budget, provide timely expenditure projections and budget to actual reports, and to improve grants management and compliance.

These systems and the service delivery model were developed with the current vendor since FY04 as the most cost efficient and effective method by which to deliver these critical services. There are three components to this resolution.

1. Hosting of Hardware / Software for Budgeting and Reporting System -- Sherpa Government Solutions supplies the hardware, software and licensure for the District's salary and benefit projection, budgeting development, employee fund coding, and related management systems, and maintains and ensures all system are operating 24x7, and applies all software updates as needed. These are core systems and tools used by the Office of Management and Budget (OMB) and the Office of Grant Compliance and Fiscal Services (GCFS). The services provided are similar to the outside contract required to maintain the School Net system and the Advantage Financial System. These services are provided at a flat yearly rate of \$72,000 to be billed quarterly for the period of July 1, 2018 through June 30, 2019.

2. Software System Administrative and Technical -- OMB has developed, with the support of Sherpa Government Solutions, sophisticated budget development tools over the last 10 years to include a salary and benefit projection module to calculate the salary and benefits for nearly 15,000 employees with a multitude of varying and unique union requirements. This system provides a high degree of precision in

calculating budgeted costs for the current and future years and is the foundation of the development of the yearly budget. The salary and benefit projection and budget development system is critical to improving budget to actual reporting throughout the fiscal year and for estimating expenses and the District's financial position. In addition, OMB has developed critical systems for management reporting, such as a headcount tracking database system to report budgeted versus on-board headcount, and a functional budget model by which to report budget to actual results for internal management decision making and for external reporting to stakeholders.

The various database systems and applications developed require significant administrative technical support to maintain, similar to the staffing the District has to maintain and support the Advantage System. The District's Information Technology Office does not have the support staff or the knowledge to maintain these OMB systems. Therefore, Sherpa Government Solutions provides the support necessary to keep these systems functioning. Sherpa Government Solutions is an expert on budgeting and related systems, having implemented and administered budgeting and financial systems and served as report developer for clients including the State of Iowa, State of Missouri, Commonwealth of Kentucky, Oakland Schools, Milwaukee County, Missouri Department of Transportation, Orange County, California, City of Minneapolis, New York State Thruway Authority, San Diego County, Baltimore and Honolulu Counties, City of Philadelphia, and the Commonwealth of Virginia, among others. The contract is based on a flat rate for services as it is advantageous to the District. Sherpa Government Solutions spends approximately 2,200 hours per year providing system administration and technical support services with significant periods of intensive hours consumed during deadline driven periods. These services are provided at a flat yearly rate of \$120,000 to be billed monthly for the period of July 1, 2018 through June 30, 2019, including \$5,000 for travel expenses.

3. Application development -- OMB has developed and implemented with the support of Sherpa Government Solutions web based database systems to more effectively carry out its key functions. Past and ongoing systems developed include a complex salary and benefit budget development system to perform budget projections and detailed salary forecasts based on specific SDP requirements, a functional budget model, and complex VBA programming in Microsoft Excel.

Pursuant to the recommendations contained in the Larson Allen report regarding SDP grant management systems (containing a risk assessment on SDP's grants compliance and proposed policies and procedures for managing grants), and pursuant to the SDP's Grant Corrective Action Plan with the State and Federal governments, the SDP Office of Grant Compliance and Fiscal Services seeks to engage Sherpa Government Solutions to provide on-going technical support for the recent technical conversion of grant budgeting to a 12-month basis in the Advantage Financial system. The conversion of grant budgets in Advantage consistent with the SDP's 12 month fiscal year will provide policymakers and managers at all levels a more accurate and timely picture of resources available from which to make better resource decisions. The hourly rate is \$159 for these services. In addition, Sherpa shall provide on-going technical support with the web-based federal time and effort documentation system and related systems to help ensure grant funds are compliant. The estimated yearly cost for on-going support is \$100,000 for 628 hours of work at \$159 per hour the period of July 1, 2018 through June 30, 2019.

RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, to execute, deliver and perform an amendment of Contract No. 820/F13, originally entered into with Donald Wilson Consulting Group, pursuant to Resolution No. A-22, approved by the School Reform Commission on June 19, 2013, as amended, to extend for one-year the term of the contract from its current scheduled expiration date of June 30, 2018 through June 30, 2019, for an additional amount of \$240,000 to provide budget and expenditure analysis required to refine and update expenditure projections, to better align the School District's budget, expenditure and accounting practices and to develop and produce quarterly financial projections.

*Description:* The District is in the process of selecting, through a competitive process, a vendor to bring the District's existing Enterprise Resource Planning (ERP) system up to current standards to facilitate improved resource planning and management. Donald Wilson has extensive and varied expertise in accounting, budgeting, and reporting concepts, systems and software generally, and extensive experience of District systems and processes in particular. Donald Wilson's knowledge, skills and abilities are valuable to the ongoing District Finance operation. Importantly as well, Donald Wilson's knowledge and expertise will be essential with regards to the successful implementation of an updated ERP system. Therefore, the District seeks to extend the current contract with Donald Wilson for an additional year.

The services currently performed by Donald Wilson were competitively procured and awarded through RFP 361 completed in January, 2013. Three vendors responded: Donald Wilson Consulting Group, PCG Education, and Bazilio Cobb Associates. Based on an estimated 2,222 hours of work and the hourly rates and expenses submitted by the vendors, the price submitted by Donald Wilson Consulting Group was \$240,000, the price submitted by PCG Education was \$417,736, and the price submitted Bazilio Cobb Associates was \$265,751. It was in the best interest of the District to select the incumbent vendor.

This resolution represents the continuation of services that have been rendered to Finance since FY06. Donald Wilson Consulting Group brings a package of skills and abilities with regards to Advantage system knowledge, accounting experience, analytical skills, and extensive report writing skills that have been critical to Finance's ability to develop expenditures projections with a high degree of granularity and confidence. In addition, Mr. Wilson continues to perform the analysis required to refine expenditure projections, to better align District budget, expenditure, and accounting practices, and to identify and document improvements in accounting practices to ensure that a complete financial picture is presented on a regular basis. This is particularly important given senior management's growing need for timely and detailed financial information and analysis. In addition, Mr. Wilson's experience will help ensure a successful implementation of an updated ERP system.

Jounce Partners, Inc. will train and coach assistant principals on the core elements of effective high frequency, high intensity coaching. Jounce Partners will also train and coach instructional leaders on effective coaching techniques and classroom practices at five IMS schools with the goal of preparing teachers to move into instructional leadership roles and effectively coach other teachers.

TNTP will organize and conduct professional development sessions that prepare teachers to deliver a Common Core aligned lesson with students. School leaders will then be responsible for leading their school through a school based reflection process after delivery of lessons. ELA sessions will push participants on the purpose and urgency of using complex text, while building skill with using texts through rigorous, text dependent questions. Math sessions will build on participant knowledge of the shifts, further developing the ability to prioritize the most important work of the grade for their own classroom planning and increase the cognitive demands of students. In addition, participants will prepare their lessons with an eye towards demonstration of learning in order to develop concrete ideas and tools they can bring back to their classrooms.

TNTP will also conduct a Leadership Coaching Program for IMS principals and assistant principals. TNTP will: 1) develop a vision of academic excellence with the principals and assistant principals aligned with the Chief Academic Officer's vision and goals for excellent teaching and student achievement; 2) build the capacity of principals and assistant principals to communicate their vision of academic excellence to their teachers and develop their teachers' ability to execute toward this vision; 3) monitor progress to ensure the principal and the assistant principal development yields changes in management strategies and teachers' classroom practice aligned with goals; and 4) conduct bi-weekly coaching sessions, in-person and virtually, to support principals and assistant principals in achieving the goals set forth. The TNTP leadership coach will work side-by-side with principals and assistant principals in schools, providing the opportunity to practice coaching teachers with immediate feedback. Virtual coaching sessions will be utilized to monitor progress, discuss challenges and plan for upcoming in-person coaching sessions.

Hendy Avenue Consulting will support the leadership team at six IMS schools. Hendy Avenue will conduct co-observations of instruction and the use of the TNTP Core rubric and will support calibration efforts and feedback to the teachers observed. Hendy Avenue Consulting will also gather classroom data for a cross-network analysis of instructional practices; collect feedback and make recommendations for changes and additions to the TNTP Core rubric; support change management regarding implementation; and provide technical assistance on a data tool to capture observation data and understand trends within a school and across the IMS network.

collaboration to strengthen family engagement, for the period commencing February 16, 2018 through June 30, 2020; and be it

FURTHER RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, to accept with appreciation from WestEd the donation of training, coaching and technical assistance to implement the APTT in nine District elementary schools, valued at \$506,900; and be it

FURTHER RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, contingent upon receipt of this donation, to execute, deliver and perform a Memorandum of Understanding, in the form acceptable to the Office of General Counsel and the Office of Risk Management, with WestEd, to provide these services in District schools, for the period commencing February 16, 2018 through June 30, 2020.

*Description:* The purpose of this resolution is threefold: 1) to authorize the acceptance of a monetary subgrant from WestEd, sponsored by the William Penn Foundation; 2) to accept the donation of training, coaching and technical assistance for school district teachers and administrators; and 3) implement the Academic Parent Teacher Teams (APTT) model in nine elementary schools, selected through an application process that demonstrates school-readiness to implement a new effective approach to engage families that supports student learning.

Academic Parent Teacher Teams (APTT) is a systematic process that builds and sustains family engagement and leadership through professional development and dual capacity-building that result in strong family-school partnerships. The goal of this partnership is to empower both teachers and families with targeted information, tools, and strategies that can enrich the home learning environment. The objectives of APTT training and technical assistance are to build the capacity of:

- teachers to engage families in student learning goals,
- administrators to grow and sustain family engagement practices,
- families to support their child's learning goals, and
- staff to create systematic process for school and family partnerships to align with school improvement goals.

The APTT model supplements and elevates the efforts of traditional parent conferences by expanding opportunities for families and teachers to collaborate. This format creates a systematic pathway for teachers to share grade-level information, tools, and strategies that families can apply at home and in the community to accelerate students' learning. By implementing APTT, schools take responsibility for engaging in a collaborative process to build strong relationships with families and empowering their students' families to make concrete contributions to student growth and achievement.

Families attend three 75-minute team meetings each year and one individual session with the classroom teacher. The team meetings give families opportunities to learn and contribute in a collaborative environment. Families learn important grade-level information about foundational level skills and effective, engaging home practices.

The first phase in the APTT implementation process is a six-month awareness and preparation phase. WestEd will work collaboratively with the district to plan for and assemble a cohort of nine ready schools to implement APTT. The work includes developing a plan to share family engagement research and best practices with district and school leaders; developing knowledge and understanding of the APTT model

of family engagement and application with schools and families; and developing an application, rubric, and selection process for eligible schools to be part of the process.

The second phase in the APTT implementation process is a two-day intensive training for teachers, school support staff, school and district administrators across offices and units, and individuals from local organizations working in partnership with schools in the district. Through activities and discussions, they will experience a paradigm shift from a parent involvement to a family engagement model and develop skills to incorporate APTT's family engagement approach in their everyday practices and interactions with parents and caregivers. Activities include videos, documents, and additional exercises about APTT's essential elements for strategically connecting families and schools. They include:

- Meaningful Partnerships to facilitate the development of strong, trusting relationships that lead to collaboration and mutual support,
- Improved Communication to help families gain a deep and practical understanding of their shared responsibility for student learning growth,
- Shared Data to increase knowledge and understanding of measures of success to cultivate high expectations and goals, and
- Access to Resources to provide families materials, trainings, and hands-on opportunities to support continued learning and shared responsibility to improve student outcomes.

For all APTT meetings with families, the model ensures that administrators and teachers incorporate six critical elements for successful family engagement:

1. Welcome and Team Building: facilitates the development of strong, trusting relationships that lead to collaboration and mutual support beyond the classroom.
2. Teaching Foundational Grade-Level Skills: helps families gain a practical understanding of the skill and how it can be applied to support student learning.
3. Sharing Data: increases families' knowledge of and comfort level with academic measures of success and to cultivate high expectations and shared responsibility for student learning growth.
4. Teacher Modeling: promotes growth in the selected foundational grade-level skills by demonstrating and discussing exercises with families.
5. Family Practicing of Activities: supports family engagement in activities that promote student growth in the foundational grade-level skills by providing families materials and hands-on opportunities.
6. Setting SMART (Specific, Measurable, Actionable, Realistic, and Time-Bound) Goals: helps families as they take an active role in setting high expectations and monitoring their child's growth and achievement.

By implementing these activities and practices, families are not only welcomed but encouraged to engage in partnerships with schools and districts.

starting later than anticipated.

*Description:* This strategy is designed to create more coordinated support when a child presents with challenging behaviors. It aims to ensure wellness for all youth and families by identifying drivers of behavioral issues early and connecting children and families to appropriate resources. Early and proactive intervention will reduce missed instructional time and provide appropriate supports to prevent children going into crisis. The strategy to be piloted is to add a Master's level Social Worker and a Master's level School Behavior Consultant to selected schools.

Social Workers will be added to 21 schools and will serve to identify the needs of a youth and family that are interfering with learning, attendance, and positive behavior via screenings and assessments. Such needs range from social supports, navigating involvement in other systems to referral for behavioral health evaluation and treatment opportunities. The social worker will work with the School's Tier 2 Team.

School Behavior Consultants will be added to a smaller number of schools and will provide consultation on multiple levels including school-wide and classroom-wide behavioral interventions, classroom management techniques, and individual behavioral health needs of students. The behavior consultant will participate in the School's Tier 1 and Tier 2 Team.

The proposed strategy will support the school in identifying and addressing behaviors for all children (without regard to insurance status) across a continuum of needs:

Tier 1: Universal supports for a positive school climate and social emotional wellness;

Tier 2: Youth at Risk and for whom social emotional issues may be a barrier to academic success;

Tier 3: Youth with a diagnosed behavioral health issue and who require intensive treatment.

Philadelphia, through the Superintendent or his designee, to accept with appreciation a grant from The Center for Supportive Schools to cover in school costs and stipends for the Peer Group Connection Model in the amount of \$90,000 and to support an evaluation by the School District's Office of Research and Evaluation of the Peer Group Connections model as implemented in the School District, for an amount not to exceed \$38,000, for a total amount not to exceed \$128,000, for the period commencing January 18, 2018 through June 30, 2020.

*Description:* Peer Group Connections will improve educational outcomes for students in Philadelphia high schools through the implementation and evaluation of an evidence-based, peer group mentoring and high school transition program. CSS will implement, in partnership with the School District of Philadelphia (SDP), the Peer Group Connection (PGC) program, an evidence-based, high school program that provides a continuum of support to students as they transition from middle to high school. PGC is a group mentoring model in which high school juniors and seniors are trained to become mentors and positive role models for 9th graders to help the freshmen make a successful transition to high school. PGC trains select school faculty to prepare older students, specifically high school juniors and seniors, to mentor and educate younger students, specifically freshman. PGC is implemented as follows:

- PGC begins with the assembly of a stakeholder team of administrators, faculty, parents, and/or community members who support PGC implementation and long-term sustainability.
- Carefully selected faculty members, whom we call faculty advisors, participate in an 11-day daily, 45-minute leadership development class (i.e., an elective course for credit) to become peer mentors, positive role models, and discussion leaders for 9th graders.

On September 14, 2017 resolution A-4 authorized the District to accept donated services from The Center for Supportive Schools for 4 comprehensive high schools. The 4 schools include Ben Franklin High School, Kensington High School, South Philadelphia High School, and Northeast High School. This resolution expands the scope of this project by accepting donated services to be used for an additional school. The school selected is Sayre High School. The resolution also includes the acceptance of funds directly by the 5 schools receiving the donated services. Those funds will be used to cover in-school costs and stipends as schools implement the Peer Group Connection Model. Additional funds will also be used to cover costs for The Office of Research and Evaluation to support an evaluation of this initiative.

**No Cost Contract and Right of Entry with Noresco – Comprehensive Energy Audit – Strawberry Mansion, Northeast, and Saul High Schools**

RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, to execute, deliver, and perform a no cost service agreement with Noresco to perform a comprehensive energy audit (CEA) of three district facilities to determine what energy conservation measures might be installed under a Guaranteed Energy Savings Agreement, at no obligation or cost to the School District, for the period commencing February 19, 2018 through May 31, 2018 pursuant to a limited right of entry.

*Description:* The adopted Capital Improvement Program (CIP) for FY2017-18 includes funding to implement an Energy Savings pilot through the Guaranteed Energy Savings Agreement ("GESA"). The pilot project will include capital improvements to improve building conditions, reduce utility costs, and generate savings that can be applied to reduce the School District's deferred maintenance capital backlog.

On October 10, 2017, the School District's Office of Capital Programs publicly advertised and issued a Request for Proposals (RFP) to obtain public competitive proposals from energy services companies for the design and implementation of energy conservation measures at three district facilities ("Project") on a Guaranteed Energy Savings Agreement (GESA) basis. Nine (9) firms responded to this RFP by the December 4, 2017 deadline. A ten-person evaluation committee consisting of staff from the Office of Capital Programs, Division of Maintenance, Office of Environmental Management Services and Office of Facilities completed evaluations of the technical proposals.

Proposals were scored on the following established criteria: (1) qualifications of the firm completing projects of similar scope and size in facilities designed for educational use; (2) qualifications of the project team based on their technical experience, certifications and licenses; (3) proposer's approach to construction and ability to meet the project schedule; (4) meeting MBE/WBE participation goals; and (5) the proposers plan to involve District students in meaningful training and educational opportunities. Following the tally of the technical review scores, four (4) firms were selected by the evaluation committee for oral presentations and interviews on February 1 and 2, 2018.

The four firms selected for oral interviews were Johnson Controls, Noresco, Ameresco, and Energy Savings Group.

This activity will help Noresco understand how the buildings operate to calculate guarantee the savings.

FURTHER RESOLVED, that the School Reform Commission authorizes the School District of Philadelphia, through the Superintendent or his designee, to execute, deliver, and perform an amendment of a contract with Public Health Management Corporation (PHMC), previously authorized pursuant to Resolution B-6, approved by the School Reform Commission on March 17, 2016, and Resolution B-3, approved by the School Reform Commission on February 16, 2017, by extending the term of the contract from its scheduled expiration date of June 8, 2018 through October 30, 2018.

*Description:* A key component of the School District's Action Plan is Anchor Goal 2, ensuring that students are reading on grade-level by third grade. Creating and sustaining a preK to Grade 3 learning continuum is a significant component to ensuring that third graders have the foundational skills they need for long-term academic success.

The District has been working with community partners like those participating in the "Read! By 4th" campaign to address many of the cross-systems training and support needs between and among the preK and K-12 sectors to enhance PreK-3 instructional alignment. However, the full impact of these efforts will not be fully realized without a concomitant attention to solving the considerable operational and infrastructure challenges this city confronts around the Kindergarten Transition experience, which include:

- Ensuring that all five-year-olds are identified, registered and enrolled in kindergarten several months before the school year begins so that not only are the children ready for kindergarten, but kindergarten classrooms are ready for the children;
- Ensuring that all families of incoming kindergarteners have an established working protocol around what to expect from their children's teachers and are provided with meaningful tools and activities to facilitate a smooth transition; and
- Ensuring that schools are able to support a smooth transition to kindergarten for all children by meeting each family prior to the start of the school year and reviewing relevant data to plan for the individual instructional needs of each incoming kindergartener.

With funds awarded through a grant from the William Penn Foundation to the School District to support Kindergarten Transition, the School District's Office of Early Childhood Education has developed a successful, formal relationship with Public Health Management Corporation (PHMC) that provides a temporary, full-time individual who works as a Fellow with the District to design and support improvements to its kindergarten transition efforts. Much of this project's success thus far is due to PHMC's unique position as operator of the Southeast Regional Key (SERK), one of five regional keys working in partnership with the Pennsylvania Department of Education to develop and implement an integrated and coordinated system of quality improvements and professional development supports for schools and agencies serving children from birth through age 8. As SERK operator, PHMC enjoys convening authority with most if not all of the community-based early education care agencies in the region, and maintains an experienced team of early learning specialists that is well-versed in the most

#### **Donation: \$627,100 Ratification of Acceptance of Donation of Services and Resources from Philadelphia Writing Project; Memorandum of Understanding**

RESOLVED, that the School Reform Commission hereby ratifies the acceptance with appreciation by the School District of Philadelphia, through the Superintendent, of the donation of services and resources from the Philadelphia Writing Project, to provide parent training sessions and professional development opportunities to School District staff at Sheridan School, Solis-Cohen School, and Willard School, valued at \$627,100, for the period commencing May 1, 2017 through June 30, 2021; and be it

FURTHER RESOLVED, that the School Reform Commission hereby ratifies the execution, delivery and performance by the School District of Philadelphia, through the Superintendent, of a Memorandum of Understanding with Philadelphia Writing Project, in a form acceptable to the School District's Office of General Counsel, to implement this donation of services.

*Description:* This ratifying resolution is submitted due to a misunderstanding around grant endorsement and resolution requirements. The Office of Multilingual Curriculum and Programs was only recently made aware of the District being recipient of service delivery through the "Kid Writing" grant awarded to the Philadelphia Writing Project by the William Penn Foundation. To ensure services continue to be rendered by the Philadelphia Writing Project, the Office of Multilingual Curriculum and Programs is submitting this board resolution with the understanding that future District beneficiaries of services will have to adhere to the grant attainment process and resolution procedures prior to service delivery.

Philadelphia Writing Project (PhilWP) was awarded the "Kid Writing" Grant by the William Penn Foundation, in order to assist the School District of Philadelphia (the School District) with building teacher capacity to improve the teaching of "Kid Writing" framework to English as a Second Language (ESL) and K-1 classroom teachers at Farrell School, Sheridan School, Solis-Cohen School, Spruance School, and Willard School. The intent is to transform teacher practice, accelerate students' ability to write, read, and comprehend texts, increase parent support for student learning, and develop infrastructure and capacity for expanding the "Kid Writing" initiative.

It is also the goal of this partnership to build the capacity of parents to engage in "Kid Writing" experiences with their children and support the implementation of "Kid Writing" at home. To achieve this, PhilWP proposes to facilitate four (4) bilingual parent training sessions annually at each school; purchase materials and supplies, including "Kid Writing" Books, alphabet and chunk charts for students, parents, and teachers; as well as offer Sunday literacy workshops by PhilWP Reading Specialists at various local libraries for families.

To ensure sustainability of these initiative, PhilWP will develop videos, student portfolios, photographs, and text materials that will assist schools and District offices on developing a vision for K-1 writing instruction that promote independent student reading and writing. "Kid Writing" workshops will be

integrated into the District's "instructional" Writing Workshop model in order to streamline these instructional practices.

Additional activities that PhilWP proposes to carryout are summer institutes for teachers and principals, yearlong professional development and practitioner conferences, youth and family programming, partnerships with arts and community organizations, scholastic art and writing awards, and a walking marathon titled "Walk for Literacy," which looks to raise awareness and combat illiteracy in the City of Philadelphia.

#### **Categorical/Grant Fund: \$120,000 Contract Amendment with Nulinx International, Inc. – Data Management System for Early Childhood Education**

RESOLVED, that the School Reform Commission authorizes The School District of Philadelphia, through the Superintendent or his designee, to execute, deliver and perform an amendment of Contract No. 879/F17, originally entered into with Nulinx International Inc., pursuant to Resolution B-6, approved by the School Reform Commission on January 21, 2016, by extending the term of the contract from its original scheduled expiration date of June 30, 2018 through June 30, 2019 and by increasing the amount of the contract by an additional \$120,000 from \$625,000 to an amount not to exceed \$745,000, to support continued utilization of the Child Outcome, Planning and Administration (COPA) system for the management of data related to its citywide prekindergarten programming.

*Description:* The School District of Philadelphia currently provides prekindergarten services to over 10,000 three- and four-year old children in Philadelphia through an array of programs at more than 160 different internal and external sites throughout the city. These programs include Head Start, Pre-K Counts, Bright Futures and PHL-PreK, and are funded through a variety of federal, state, city and local funding sources. All of the programs are managed and coordinated by the School District's Office of Early Childhood Education (OECE). The prekindergarten programs are delivered at school-based centers, stand-alone District centers, and high quality community-based prekindergarten providers who qualify through a competitive RFP process.

The administrative and compliance requirements of each of the funded programs necessitates the collection and analysis of significant amounts of demographic and programmatic data on children and families. Data collection begins with a family's first contact with the program and extends through the child's transition to kindergarten, and includes information on preK applications, enrollment, and waiting lists as well as data on student and family demographics, children's attendance and meals, child health, and family support. The data collected is used to determine a family's eligibility among different programs based on income and other risk factors, to track services including referrals and follow-up documentation, and to report to various stakeholders including federal, state and local funders on services, client demographics, and program statistics. As noted above, services and the related data collection and documentation occur at a wide array of program locations across the city, including District classrooms, partner sites, and the District's Central Office.

The COPA system (Child Outcome, Planning and Administration) offered by Nulinx International Inc. was selected through a competitive RFP process and is being used by all Pre-K programs, both internal and contracted, operated or administered by the School District of Philadelphia. The COPA system uses

an Application Service Provider model and is web-based, allowing for data collection in over 500 classrooms as District and partner sites as well as administrative offices. Over the past three years, OECE has required Nulinx to provide numerous customized input fields and reports in order to remain in compliance with all funders and required regulations.

Extension of the current contract will enable the COPA system to continue to meet all of the various reporting and administration needs by:

- Tracking information on children and their families from the time they first apply to the program to their transition to Kindergarten;
- Providing data management that supports the implementation of Head Start, Bright Futures and other prekindergarten programs;
- Supporting program monitoring to help ensure compliance with the Head Start Performance Standards and other federal, state, and local regulations;
- Supporting program reporting including the Federal Head Start Program Information Report (PIR) and PHLPreK city reporting requirements;
- Supporting the management of other subsets of data, such as attendance, meal and snack data, teacher qualifications, and partner center information; and
- Meeting all technical specifications for the School District of Philadelphia.

student to wear, to display publicly, or to disclose a student ID card/badge that exhibits information that has been properly designated as directory information.

The District may continue to disclose directory information about former students without providing annual notice and opt out opportunities; however, the District must continue to honor any valid request to opt out of the disclosure of directory information made while a student was in attendance unless the student rescinds the opt out request.

The District may release de-identified student level data from education records for the purpose of education research by attaching a code to each record that may allow the recipient to match information received from the same source, provided that:

1. The District does not disclose any information about how it generates and assigns a record code, or that would allow a recipient to identify a student based on a record code;
2. The record code is used for no purpose other than identifying a de-identified record for purposes of education research and cannot be used to ascertain personally identifiable information about a student; and
3. The record code is not based on a student's Social Security Number or other personal information.

### **B. Re-disclosure of Records**

The District will disclose information from education records only on the condition that the party to whom the information is disclosed will not disclose the information to any other party without the prior consent of the parent or eligible student.

Information disclosed by the District is to be used by the party only for the purpose(s) for which the disclosure was made.

The District may disclose personally identifiable information with the understanding that the party receiving the information may make further disclosures of the information on behalf of the district only if the requirements of law and regulations are met.

Access shall be granted within a reasonable period of time not to exceed forty-five (45) calendar days after receiving the request. Review of records shall be permitted in the presence of the principal/designee for the purposes of security and assistance in explaining or interpreting the data. The District shall respond to any reasonable request for explanation and interpretation of the records.

If the education records of a student contain information about more than one (1) student, the parent of the student or the eligible student may inspect and review or be informed orally or in writing of only the specific information which pertains to that student.

If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the student's education records, the District shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records. Copies shall be provided at a reasonable rate as determined by the district in order to cover the cost of copying.

*There shall be no fee to search for or to retrieve the education records of a student.*

**E. Record of requests and disclosures required to be maintained**

The District shall maintain a record of each request for and each disclosure of personally identifiable information from the education records of a student. For each disclosure, the record must include the parties who have requested or obtained personally identifiable information from the student's education records and the legitimate interests these parties had in requesting or obtaining the information.

If a disclosure is made, pursuant to a health or safety emergency, the District shall record the specific and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure, as well as the parties to whom the district disclosed the information.

The record of access shall include not only in-person access, but also cases where information is disclosed by any other means including, but not limited to, telephone, facsimile, email and/or mail. The school official permitting access/disclosure shall take necessary steps to confirm the identity of persons requesting student information and the legitimacy of the request.

The record of disclosure shall be available for inspection by parents, eligible students, school officials responsible for the custody of the records, and authorized representatives of the federal or state government for the purpose of auditing the district's recordkeeping procedures.

If the District discloses personally identifiable information from education records with the understanding that the party intends to re-disclose the information, the record of the disclosure must include:

1. The names of the additional parties to which the receiving party may disclose the information on behalf of the educational agency or institution; and
2. The legitimate interest which each of the additional parties has in requesting or obtaining the information.

3. This requirement does not apply to disclosures to authorized representatives of state and federal government to whom disclosure is permitted without parent/eligible student consent; however, the District will request a copy of the record of further disclosures from the state and/or federal government in response to a parent's or eligible student's request to review such records.

4. If the building principal decides not to amend the information as requested, the building principal shall inform the parent or eligible student, in writing, of his/her decision, the specific reason(s) for the refusal, and the right to request a hearing.

Inaccuracies in student records can be changed at any point after a child has transferred to a new school; enrolled in further education; moved on to a different school in the district, graduated or withdrawn from the district, regardless of time constraints.

If the parent or eligible student is not satisfied with the principal's decision to not amend the record, s/he may submit a written request for a hearing to challenge the information in the student's education records to the Office of Appeals or designee within thirty (30) days of receiving the principal's decision.

The District shall hold the hearing within a reasonable time, not to exceed forty-five (45) calendar days, after receiving the request for a hearing and provide the parent or eligible student reasonable advance written notice of the date, time, and place of the hearing. The District shall inform the parent or eligible student of its decision in writing within forty-five (45) calendar days after the hearing.

If, as a result of the hearing, the District decides that the information is not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights, the District shall inform the parent or eligible student of the parent's/student's right to place in the records a statement commenting on the information and/or providing any reasons for disagreeing with the district's decision.

Any statement placed in the student's records shall be:

### **Review of student records at transition years – K to 1st, 5th to 6th and 8th to 9th**

Although Cumulative and other Student Folders are reviewed on an annual basis, a comprehensive file review should also take place at the following transition times: Kindergarten Center to 1st grade, elementary school to middle school, and middle school to high school.

### **Review of student records prior to transitioning to another District school**

When a student transitions within the district, the designated office staff should review the Student Record to verify that all required items are included and to remove all non-required items. The designee reviews the list of items required to be in the Student Record (see Section I of this document). If an item was placed in the folder on an “as-needed basis,” it is evaluated to determine if it remains educationally necessary. Purged documents are shredded. The same process should occur for special folders such as the Nursing Folder, ELL Folder and all others.

### **Record procedures for students placed on homebound or in an out-of-district placement**

When the District places a student on homebound instruction or in an out-of-district placement, Student Records **MUST** be maintained at the last attended school on record. At graduation, student files are treated the same as any other graduate.

### **Record procedures for students who withdraw from the district**

When a student withdraws from the District, the designated office staff reviews the Student Records to verify that all required items are included and to remove all non-required items (see

Section I of this document). If an item was placed in the folder on an “as-needed basis,” it is evaluated to determine if it remains educationally necessary. Purged documents are shredded.

**No request for records:** When there is no request for records from another school, the Student Record is held on file at the school until the student reaches the age of 21. At that time, only basic information required to be kept for 100 years is retained at the school. This can be in the form of a registration card.

**Request for records from other districts:** When there is a request for records from another school district in Pennsylvania, **copies** of the Student Record it should be forwarded to the requesting district. The school retains the **original Student Record** until the student reaches the age of 21. At that time, only basic information required to be kept for 100 years is retained at the school. This can be in the form of a registration card.

However, the School District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the School District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.<sup>1</sup>

If you do not want the School District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing by November 1st, 2017. The school District has designated the following information as directory information:

2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and
3. Activities involving collection, disclosure, or use of personal information collected from students for marketing or to sell or otherwise distribute the information to others. (This does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions.)

- *Inspect*, upon request and before administration or use –

1. Protected information surveys of students and surveys created by a third party;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

**The School District of Philadelphia** has policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. **The District** will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The District will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of

participation of the specific activity or survey. **The school District** will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this direct notification requirement:

- Collection, disclosure, or use of personal information collected from students for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.

## **Model Notification of Rights under FERPA for Elementary and Secondary Schools**

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the school receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the school to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a

disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the [School] to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(I) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education

programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§ 99.31(a)(8))
- To comply with a judicial order or lawfully issued subpoena if applicable requirements are met. (§ 99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to § 99.36. (§ 99.31(a)(10))
- Information the school has designated as "directory information" if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))
- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student's case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))
- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))

SECTION: 200 Pupils

TITLE: Searches

ADOPTED: April 27, 1981

REVISED: December 17,

1990

## 226 SEARCHES

### Purpose

The School Reform Commission acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the District's interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

### Authority

School officials have the authority to lawfully search students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, SRC policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[\[1\]](#)[\[2\]](#)[\[3\]](#).

**When school officials have reasonable suspicion to believe that a student's electronic device contains evidence material of a sexual nature, school officials shall not search those electronic devices for the material, but instead shall confiscate the electronic device, ~~must~~ notify the authorities to investigate the incident, and maintain the electronic device securely under lock and key until returned to the student or submitted to the authorities.**

The District has a compelling interest in protecting and preserving the health, safety and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their lockers, vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons or other dangerous materials.[\[4\]](#)[\[5\]](#)[\[6\]](#)

### Delegation of Responsibility

The SRC authorizes the administration to conduct searches of students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy **and administrative procedures.**

The Superintendent or designee, in consultation with the Office of General Counsel, shall develop guidelines and administrative procedures to implement this policy, and shall ensure that school staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.[\[2\]](#)

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy **and administrative procedures.**

### Guidelines

#### Individualized Suspicion Searches

~~Students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under school supervision if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, SRC policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.~~[\[2\]](#)

~~In determining whether reasonable suspicion exists, the principal or designee should always be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.~~

~~Examination by school staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, SRC policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.~~

#### Random or General Searches Without Individualized Suspicion

~~Under certain circumstances, random or general searches of students and their belongings, including student lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances,~~

~~weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis.~~

~~Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, inside or outside of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.~~

~~Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in school.~~

### Searches Upon Consent

~~Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched.~~

~~The administration may establish rules and procedures governing certain privileges enjoyed by students, such as the privilege of parking a vehicle on school grounds, that make the student's consent to random searches or inspections a condition of access to the privilege.[5]~~

### Searches by or at the Request of Law Enforcement Officials

~~The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.[7]~~

### Locker Inspections and Searches

~~Lockers may be assigned to, or otherwise made available to, students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities and to and from school. Such lockers~~

are and shall remain the property of the District, and to the extent students have any expectation of privacy of lockers at all, it is very limited.<sup>[2]</sup>

~~No student may place or keep in a locker any substance or object that is prohibited by law, SRC policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student, whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.~~

~~Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the District, or if the District does not provide locks, personal combination locks for which the combination has been provided to designated school staff.~~

~~Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.~~

~~The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.~~

#### Searches Involving Removal of Clothing or Examination Beneath Clothing

~~Searches of students involving the removal of undergarments or examination beneath undergarments are subject to stricter standards than are required to justify other searches of a student's person or belongings. Such searches are permitted only when the basis for suspicion establishes either:~~

- ~~1. That the reasons for believing that the items being searched for are concealed specifically inside undergarments are stronger reasons than grounds that would support only a more general reasonable suspicion that the student is in possession of the items or has them somewhere on the student's person; or,~~
- ~~2. That the quantity or nature of the items being sought present a higher level of danger to the school population than other kinds of contraband.~~

~~Searches involving the removal of or examination beneath any clothing of a student, other than jackets, coats or other outerwear, shall be conducted only by a staff person of the same gender as the student, with at least one (1) other staff person of the same gender~~

~~present as a witness, and in a location assuring privacy from observation by persons not involved in the search or of the opposite sex.~~

### **Handling and Disposal of Items Found in the Course of Searches**

~~Any items or material found during a search or inspection, the student's possession of which is in violation of law, SRC policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.~~

~~The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.~~

**Student activity or organization** - any organization, team, club, society, or group operating under the sanction of or recognized as an organization by the district.

#### **Authority**

The School Reform Commission prohibits hazing in connection with any student activity or organization regardless of whether the conduct occurs on or off school property or outside of school hours.[\[2\]](#)[\[3\]](#)[\[4\]](#)

In addition to posting this policy on the District’s website, the District shall annually inform students, parents/guardians, sponsors, volunteers and District employees that hazing is prohibited, by means of distribution of written policy, publication in handbooks, verbal instructions by the coach or sponsor at the start of the season or program and/or posting of notice/signs.[\[2\]](#)

#### **Delegation of Responsibility**

Students, parents/guardians, coaches, sponsors, volunteers, and District employees shall be alert to incidents of hazing and shall report such conduct to the building principal.

District administrators shall investigate promptly all complaints of hazing and administer appropriate discipline to any individual or student activity or organization found to be in violation of this policy.

The principal shall prepare a written report summarizing the investigation and recommending disposition of the complaint.

The District shall document the corrective action taken.

### **Consequences for Violations**

If the investigation results in a substantiated finding of hazing, the principal shall recommend appropriate disciplinary action up to and including expulsion, as circumstances warrant, in accordance with the Code of Student Conduct. Additionally, the student may be subject to disciplinary action by the coach or sponsor, up to and including removal from the activity.[\[2\]](#)[\[5\]](#)[\[6\]](#)

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, s/he shall be disciplined in accordance with SRC policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment.[\[7\]](#)

If a student activity or organization authorizes hazing in blatant disregard of this policy or other applicable district rules, penalties may also include rescission of permission for that organization to operate on school property or to otherwise operate under the sanction or recognition of the district.[\[2\]](#)

## **2 ABSENCES**

### **PURPOSE**

The purpose of this policy is to establish guidelines for employee attendance. Excessive absence on the part of School District of Philadelphia (SDP) employees may have a negative effect on the services provided by the SDP, on the instructional program, the continuity of instruction to all pupils and the morale of other employees. This policy establishes procedures of the School District insofar as absences are concerned.

### **POLICY/PROCEDURE**

#### ***Attendance***

Punctual and regular attendance is expected of School District of Philadelphia employees. All employees are required to request approval for absences and leaves on the appropriate forms.

#### **2.1 APPROVAL REQUIREMENT**

Employees must secure prior approval from their supervisor and/or from Human Resources. The purpose of this requirement is to allow sufficient time to consider the request; to decide whether it may be granted; to determine the rate of salary deductions, if any; and to notify the school or department of the decision. Such requests must be prepared by the applicant on the proper form and presented to the principal or administrator for approval. Form SEH-86 is appropriate for vacation, personal leave and personal illness or illness in the family for three or fewer work days and form SEH-3 is appropriate for personal illness or illness in the family for more than three consecutive work days.

The **FMLA poster** lists employee rights under the **Family and Medical Leave Act**. Under this Act, employees may be eligible for unpaid, job-protected leave due to certain family and medical reasons.

#### **2.2 GENERAL GUIDELINES**

Documentation of reasons for a leave of absence such as a physician's signed certification of illness or disability shall be presented by the employee. Contact the Office of Employee Health Services at 215-400-4660 for additional information.

Employees on leave may not engage in any remunerative activity. Non-compliance will be a basis for employee dismissal from service.

Records of attendance shall be maintained for each employee. Absences and reasons for the absences shall be noted. These records shall be part of the evaluation of the employee's service.

## **2.3 PERSONAL LEAVE**

Full-time, regular employees may be eligible for full salary for **three** days of personal leave each year without salary loss. Part-time, regular employees may be eligible for a prorated amount of leave depending on the number of days or hours worked.

Personal leave is to be used for urgent personal business which cannot be conveniently scheduled on days other than work days and for personal emergencies requiring immediate attention.

Requests for personal leave that would have the effect of extending school holidays or beginning the summer vacation earlier or extending it will not be approved except in the most unusual circumstances.

Unused personal leave at the end of each year may be accrued without limit but not used, except for employees represented by Local 634 who receive compensation for 100% of unused personal leave days each year.

Three days may be used for personal leave in any single school year. Collective bargaining agreements may allow use of more days.

Upon termination of service, employees whose services were not terminated for intentional misconduct shall be paid in accordance with their collective bargaining agreement or the Non-Represented Employees Benefit Overview for the number of unused personal leave days. All leave balances are subject to post audit.

## **2.4 PERSONAL ILLNESS**

Full-time, regular employees may be eligible for full salary for **ten** days each year due to non-work-related illness or injuries, cumulative to an unlimited maximum. Part-time, regular employees may be eligible for a prorated amount of sick leave depending on the number of days or hours worked.

For routine physical examinations scheduled during the workday, employees must utilize personal leave or vacation time. Personal illness leave may not be used for such examinations.

An employee on sick leave who wishes to leave the city for a continuous period of time must obtain approval of the Director of Employee Health Services.

An employee whose absence exceeds ten consecutive days must be referred to the Director of Employee Health Services.

Upon termination of service, employees whose services were not terminated for intentional misconduct shall be reimbursed for 25% of unused personal illness days. All leave balances are subject to post audit.

### **Illness due to pregnancy**

Employees who are medically unable to work *prior* to delivery must submit a detailed medical report from the attending physician documenting the diagnosis to Employee Health Services. The report must explain why the employee is unable to work. Failure to submit such a report may result in unauthorized leave without pay. The same documentation is required no later than six weeks after the birth for a disability resulting from pregnancy or childbirth.

Reports should be mailed to:

School District of Philadelphia  
Employee Health Services, Suite 134  
440 North Broad Street  
Philadelphia, PA 19130

Employees are eligible for six weeks of sick leave after a normal delivery and eight weeks after a Cesarean, “C” section. A “C” section must be documented by a letter from the doctor confirming the surgery. Personal Illness days in the employee’s bank and/or the wage continuation benefit will be used for the period of this leave, if available.

In the event that the disability no longer exists, the employee may request to be placed on Parental Leave of Absence *without* further payment of benefits in accordance with collective bargaining agreements, or the employee shall be required to return to work.

#### **Extended Absence—No Wage Continuation Benefits**

Employees who do not elect to participate in the wage continuation program, who have been on continuous absence because of illness, and who are unable to return to duty at the expiration of their accumulated personal illness days may be eligible for an unpaid leave of absence equal to the difference between the number of accumulated personal illness days and a full work year. If, at the end of this unpaid leave, the employees are unable to return to service immediately, service may be terminated. Medical benefits coverage is extended during the first three months of such unpaid leave.

#### **Extended Absence—Wage Continuation Benefits**

Employees who have been on continuous absence because of illness and are unable to return to duty at the expiration of their accumulated personal illness days may be eligible for benefits under the voluntary wage continuation program if they have become members of the program. As part of the program, employees have a non-paid waiting period, depending on the number of days in their personal illness banks. They may be entitled to up to one full year of wage continuation benefits, dependent upon their applicable union, after all personal illness days are exhausted. Employees who do not return at the end of their available benefit may be separated from service. For more information concerning wage continuation and union eligibility, see the Employee Benefits section or <http://philasd.org/offices/benefits/programs/wagecontinuation>.

For employee represented by PFT and District 1201, the following regulations will apply to employees who have been absent for an extended period of time of less than one year. All other employees should refer to the Summary Plan Description of the Wage Continuation Program on the Employee benefits Website, <http://www.philasd.org/offices/benefits/>

1. When the absence is more than three months but fewer than six months, there must be a resumption of work for a continuous three months before being considered eligible again for a full year of wage continuation benefits. Any **approved** leave taken within this three-month period, with a maximum of **three** days of personal leave and **three** days of sick leave or wage continuation benefits will **not** break the continuity of service.
2. When the absence is six months or more but less than one year, there must be a resumption of work for a continuous five months before being considered eligible again for a full year of wage continuation benefits. Any **approved** leave taken within this five-month period, with a maximum

of **three** days of personal leave and **five** days of sick leave or wage continuation benefits will **not** break the continuity of service.

3. Employees who return to work after an extended absence for personal illness and find it necessary to use more than the three or five days of permitted personal illness, wage continuation benefits, or approved leave may do so if they have accumulated personal illness days, or are covered for that period under their wage continuation benefits plan. In such cases, all benefits will cease when the total number of days employees are absent due to illness equals their entitlement under their plan. The absences are cumulative and include the initial period of extended absence due to illness and all subsequent absences during the continuous return to service period.

### **Participating in Other Activities While on Sick Leave**

Employees on approved sick leave who desire to take part in a non-remunerative occupation, assist others in a remunerative occupation, or undertake volunteer activities outside the home, must obtain permission from the Chief Talent Office who shall consult the Director of Employee Health Services. Such a request must be submitted before engaging in the activity, in writing, and must include a description of the nature of the activity, specifics with respect to the location and duration of the activity, and a physician's statement indicating the medical advisability and feasibility of such activity. Non-compliance with this policy may be a basis for disciplinary action.

*All employees returning to work from an extended period of illness must receive approval from Employee Health Services prior to returning to work.*

## **2.5 ILLNESS IN FAMILY**

Certain leaves for the illness of an immediate family member may be approved. The FMLA poster describes guidelines. Contact Employee Health Services at 215-400-4660 for details on how to apply.

The term *immediate family member* refers to a spouse or partner, son, daughter, father, mother, brother, sister, grandfather, or grandmother. Relationship through marriage is equivalent to relationship by blood. Residence in the same house, however, will not place the employee within the provision of this regulation where the degree of relationship is more distant than those above specified.

Documentation required for absence for illness in the family is the same as documentation for personal illness.

## **2.6 DEATH**

Allowable lengths of absences are as follows for the death of a family member:

### **Allowable lengths of absences for other deaths:**

#### *1. Friend*

The members to be selected shall be chosen on the basis of seniority of service in the school, or by the faculty as a group if that method of selection is preferred. Others who earn Personal Leave must use it if they wish to take off work, or they may secure a leave with full loss of salary.

## **2.7 VACATION**

The amount of vacation accrual varies based on position and the length of School District service. Specific details are listed in collective bargaining agreements. Usage of vacation days requires prior approval. Blackout dates may apply, based upon departmental needs.

Vacation accrues on a monthly basis in the pay period which includes the 15<sup>th</sup> of the month.

However, employees are permitted to accept fellowships or foundation grants without losing their entitlement to salary specified by law.

The School District shall not change the duration of conditions of a sabbatical leave in the event employees become pregnant during such leave.

**Administrative Procedures for the Use of Service Animals in Schools**  
(Attachment for Policy 718)

The following administrative procedures are meant to serve as guidelines to ensure that individuals with disabilities who require the presence of a service animal are permitted to participate in, and benefit from, district programs, activities and services and to ensure that the district does not discriminate on the basis of disability.

**Admission of Service Animals on District Property**

***Admission of Service Animals to Public Events -***

Individuals with disabilities may be accompanied by their service animals while on district property for events that are open to the general public. This right of access does not extend to the schools generally or to other activities that are not open to the general public. Individuals with disabilities shall not be required to present documentation or certification for their service animals for access to district property for events that are open to the general public.

***Admission of Service Animals accompanying individuals who are not students or employees to Schools for occasions other than public events -***

Before a service animal shall be allowed in a district building, or on district property or vehicles, for an event that is not open to the general public, the District shall request the following documentation from the owner or handler of the animal:

1. Verification of the need for a service animal.
2. Description of the function(s) the service animal is trained to perform in relation to the individual's disability.
3. Proof of current vaccinations and immunizations of the service animal.

***Admission of Service Animals Accompanying Students and Employees -***

A student or an employee with a disability may submit a request to bring a service animal to school for educational or employment purposes. A student or employee seeking to bring a service animal to school adhere to the requirements as set forth in district policy and pursuant to federal state and local law

**Guidelines for Students With Disabilities:**

A student with a disability, or a parent or guardian on behalf of the student, may request to bring a service animal to school for educational purposes. The building principal shall, in consultation with the student's IEP team, if applicable, or other appropriate school personnel, determine whether the animal meets the criteria for a service animal. For students with IEPs, the IEP team shall determine whether and to what extent the student needs District-provided support in fulfilling their responsibility as handler of the service animal. Student grievances should be addressed under Policy 103.1.

#### **General Guidelines for Admission of Service Animals To Schools for Employees:**

An employee with a disability may submit a prior written request to bring a service animal to school for employment purposes to the building principal or Director of Human Resources, together with supporting medical documentation. The request shall be handled in the same manner as any other request for accommodation under the Americans with Disabilities Act. Requirements may be imposed upon the employee similar in nature to those set forth below in the next section and shall be documented in writing to the employee. Employee grievances should be handled under Policy 104.

#### **Definition of service animal**

A dog or miniature horse that is individually trained to do work or perform tasks for the benefit of an individual with a disability.

- The Americans with Disabilities Act revised the definition of service animal in to include miniature horses. Miniature horses generally range in height from 24 to 34 inches, measured to the shoulders and weigh between 70 and 100 lbs.
- Animals deemed as being for emotional support, well-being, comfort or companionship do not qualify as service animals.

#### **Determination as to Whether Animal Qualifies as Service Animal**

**In situations where it is not obvious that the animal is a service animal, District staff may ask only two specific questions: (1) is the animal a service animal required because of a disability? and (2) what work or task has the animal been trained to perform?**

**Staff are not allowed to request any documentation for the animal, require that the animal demonstrate its task, or inquire about the nature of the person's disability. The applicable law makes a distinction between psychiatric service animals and emotional support animals. If an animal has been trained to sense that an anxiety attack is about to happen and take a specific action to help avoid the attack or lessen its impact, that would qualify as a service animal. However, if the animal's mere presence provides comfort, that would not be considered a service animal under the ADA.**

**Service-animals-in-training are not considered service animals unless required by law.**

### **Responsibility for Service Animal**

**The owner or handler of a service animal shall be solely responsible for:**

- A. Supervision and care of the animal, including any feeding, exercising, clean up and stain removal.**
- B. Control of the animal at all times through the use of a harness, leash, tether or by other effective means.**
- C. Damage to District buildings, property and vehicles caused by the animal.**
- D. Injuries to students, employees, volunteers and visitors caused by the animal.**
- E. Annual submission of documentation of vaccinations and immunizations.**

**The designated administrator shall ensure that all individuals involved in a situation where a service animal will regularly accompany an owner or handler in District buildings or on District property or vehicles are informed of the Board policy and administrative regulations governing this issue. Involved individuals can include administrators, appropriate employees, student and parent/guardian**

**District administrators may exclude a service animal from District buildings, property and vehicles under the following circumstances: A. Presence of the animal poses a direct threat to the health and safety of others. B. Owner or handler is unable to control the animal. C. Animal is not housebroken. D. Presence of the animal would require a fundamental alteration to the program.**

**Any individual with a service animal who is aggrieved by a decision to exclude, limit or remove a service animal may appeal that decision in accordance with applicable Board policy as cross referenced below.**

### **Where are service animals allowed in the school building**

**Under the ADA, service animals must be allowed to accompany students with disabilities in all areas of the school where the other students are normally allowed to go.**

### **Requirements for service animal presence on district property**

- Service animals must be harnessed, leashed or tethered, unless these restraints interfere with the service animal's work or the individual's disability prevents using these devices. If so, the student is allowed to maintain control of the animal through voice, signal or other effective controls.**
- The school may not ask for proof of the animal's certification, training or license as a service animal; nor may the school require the animal to wear a vest.**
- The building principal shall receive and forward to the request to the appropriate Section 504 or IEP team.**

### **Responsibility for service animal while in the school building**

**The student or handler of a service animal shall be solely responsible for:**

- 1. Supervision and care of the animal, including any feeding, exercising, clean up and stain removal.**

2. Control of the animal at all times through the use of a harness, leash, tether or other effective means.
3. Damages to district buildings, property and vehicles caused by the animal.
4. Injuries to students, employees, and volunteers.
5. Any student with a service animal who is aggrieved by a decision to exclude, limit or remove a service animal may appeal that decision in accordance with applicable SRC policy. The appeal must be in writing and provide detailed information regarding the basis of the appeals and visitors caused by the animal.
6. Annual submission of documentation of vaccinations.

**Specific rules and exclusions related to service animal presence in the schools**

1. Students with disabilities cannot be isolated from other students. This applies even in parts of the school where foods are prepared or eaten. A student with a service animal may sit in the cafeteria with their service animal.
2. Allergies and fear of dogs are not valid reasons for denying access to students with service animals. If another student or a staff member's allergy is of concern, the school may accommodate the student with the service animal and the allergic persons in different locations in the same room or different rooms in the facility.
3. A student with a disability cannot be asked to remove their service animal from the premises unless:
  - a. the animal is out of control and the student or handler does not take effective action to control it and consequently the animal poses a direct threat to the health and safety of others.
  - b. the animal is not housebroken.
  - c. the presence of the animal would require a fundamental alteration to the program.

**TITLE: Maintaining  
Professional Adult/Student  
Boundaries**

**ADOPTED:**

**REVISED:**

## **MAINTAINING PROFESSIONAL ADULT/STUDENT BOUNDARIES (NEW)**

### **Authority**

This policy applies to District employees, volunteers, student teachers, and independent contractors and their employees who interact with students or are present on school grounds. For purposes of this policy, such individuals are referred to collectively as adults. The term *adults* as used in this policy, does not include District students who perform services on a volunteer or compensated basis. This policy applies to all District related or sponsored activities whether or not the activities take place on district property, including but not limited to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, school administration or other purposes within the scope of the adult's job duties.

All adults shall be expected to maintain professional, moral and ethical relationships with District students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

The School Reform Commission directs that all adults shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of SRC policies, administrative procedures and rules and the School District of Philadelphia Employee Code of Ethics, where applicable.

This policy is not intended to interfere with appropriate pre-existing personal relationships between adults and students and their families that exist independently of the District or to interfere with participation in civic, religious or other outside organizations that include District students.

### **Definition**

For purposes of this policy, legitimate educational reasons include matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, school administration or other purposes within the scope of the adult's job duties.

Independent contractors doing business with the district shall ensure that their employees who have interaction with students or are present on school grounds are informed of the provisions of this policy.[1]

The Superintendent or designee shall create administrative procedures including the following guidance.

(Attachment for Policy 824)

**Prohibited Conduct**

Adults shall be prohibited from dating, courting, or entering into or attempting to form a romantic or sexual relationship with any student enrolled in the District, regardless of the student's age. Examples of prohibited conduct that violates professional boundaries include, but are not limited to:

- 1. Disclosing personal, sexual, family, employment concerns or other private matters to one or more students.**
- 2. Exchanging notes, emails or other communications of a personal nature with a student.**
- 3. Giving personal gifts, cards or letters to a student without written approval from the building principal.**
- 4. Touching students without a legitimate educational reason. (Reasons could include the need for assistance when injured, a kindergartner having a toileting accident and requiring assistance, appropriate coaching instruction, or appropriate music instruction).**
- 5. Singling out a particular student or students for personal attention or friendship beyond the ordinary professional adult-student relationship.**
- 6. Taking a student out of class without a legitimate educational reason.**

- 17. Furnishing alcohol, drugs or tobacco to a student or being present where any student is consuming these substances.**
- 18. Engaging in harassing or discriminatory conduct prohibited by other district policies or by state or federal law and regulations.**

***Electronic Communications -***

Electronic communications include, but are not limited to, emails, instant messages and communications made by means of an Internet website, including social media and other networking websites.**

**As with other forms of communication, when communicating electronically, adults shall maintain professional boundaries with students.**

**Electronic communication with students shall be for legitimate educational reasons only.**

**When available, District-provided email or other District-provided communication devices shall be used when communicating electronically with students. The use of District-provided email or other District-provided communication devices shall be in accordance with District policies and procedures**

In the case of sports teams under the direction of the Athletic Director, such medical or academic communications shall also be copied to the Athletic Director.**

**Adults shall not follow or accept requests for current students to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those provided by the**

district for this purpose, without the prior written approval of the building principal.

### **Exceptions**

An emergency situation or a legitimate educational reason may justify deviation from professional boundaries set out in this policy. The adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the "Romantic and Sexual Relationships" section of this policy.

There will be circumstances where personal relationships develop between an adult and a student's family, e.g. when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many adults are involved in various other roles in the community through non-District-related civic, religious, athletic, scouting or other organizations and programs whose participants may include district students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict an adult's ability to serve in those roles; however, adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

### **Reporting Inappropriate or Suspicious Conduct**

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an adult and a student, shall immediately notify the Superintendent, principal or other administrator.

All District employees, independent contractors and volunteers who have reasonable cause to suspect that a child is the victim of child abuse, shall immediately report the suspected abuse, in accordance with applicable law, regulations and SRC policy.

An educator who knows of any action, inaction or conduct which constitutes sexual abuse or exploitation or sexual misconduct under the Educator Discipline Act shall report such misconduct to the Pennsylvania Department of Education on the required form, and shall report such misconduct to the Superintendent and

his/her immediate supervisor, within fifteen (15) days of discovery of such misconduct.

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Superintendent or designee shall make a report, in accordance with applicable law, regulations and SRC policy.

It is a violation of this policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.

### **Investigation**

Allegations of inappropriate conduct shall be promptly investigated in accordance with the procedures utilized for complaints of harassment.

It is understood that some reports made pursuant to this policy will be based on rumors or misunderstandings; the mere fact that the reported adult is cleared of any wrongdoing shall not result in disciplinary action against the reporter or any witnesses. If as the result of an investigation any individual, including the reported adult, the reporter, or a witness is found to have intentionally provided false information in making the report or during the investigation or hearings related to the report, or if any individual intentionally obstructs the investigation or hearings, this may be addressed as a violation of this policy and other applicable laws, regulations and district policies. Obstruction includes, but is not limited to, violation of “no contact” orders given to the reported adult, attempting to alter or influence witness testimony, and destruction of or hiding evidence.

### **Disciplinary Action**

A District employee who violates this policy may be subject to disciplinary action, up to and including termination, in accordance with all applicable district disciplinary policies and procedures.

A volunteer, student teacher, or independent contractor or an employee of an independent contractor who violates this policy may be prohibited from working or serving in District schools for an appropriate period of time or permanently, as determined by the Superintendent or designee.

### **Training**

**The District shall provide training with respect to the provisions of this policy to current and new District employees, volunteers and student teachers subject to this policy.**

**The District, at its sole discretion, may require independent contractors and their employees who interact with students or are present on school grounds to receive training on this policy and related procedures.**

## SECTION: PUPILS

TITLE: Harassment and Discrimination of Students

ADOPTED: September 22, 2010

REVISED:

# THE SCHOOL DISTRICT OF PHILADELPHIA

## 248. HARASSMENT AND DISCRIMINATION OF STUDENTS

### **Purpose**

The School Reform Commission strives to provide a healthy safe, positive learning climate for students in the schools. Therefore, it shall be the policy of the district to maintain an educational environment in which harassment and sex discrimination (including sexual harassment, sexual assault and sexual violence) in any form is not tolerated. It shall also be the policy of the District that each staff member shall be responsible for maintaining an educational environment free from all forms of harassment and sex discrimination, and that each student shall be responsible to respect the rights of his/her fellow students and employees and to ensure an atmosphere free from all forms of harassment and sex discrimination

### **Authority**

The SRC prohibits all forms of harassment and sex discrimination of students and third parties by all District students and staff members, contracted individuals, vendors, volunteers, and third parties in the schools. The SRC encourages students and third parties or parents/guardians of students who believe that this Policy has been violated, to promptly report such incidents to the school principal or designee, or to any other member of the school staff, including teachers, guidance counselors, bilingual counseling assistants (BCAs), coaches and administrators.<sup>[1][2][3][4]</sup> Any staff member who receives such a report shall immediately notify the principal or designee of same. If the behavior continues or if the school does not take action, students or parents/guardians should report the incident to the District's hotline at 215-400-4000.

This policy applies to students in connection with all the academic, educational, extracurricular, athletic, and other programs of the school, whether those programs take place in a school's facilities, on a school bus, in transit to and from school, at a class or training program sponsored by the school at another location or elsewhere. The policy also applies to any off-campus conduct that has a continuing effect on the campus.

The SRC directs that complaints of harassment or sex discrimination shall be investigated promptly, and corrective action taken when allegations are substantiated in accordance with the provision of any applicable state and federal laws. Confidentiality of all parties shall be

maintained, consistent with the District's legal and investigative obligations. Only those with a "need to know" will be apprised of the complaint, and staff participants in the complaint process shall be informed of their duty of confidentiality to the process as well.

The basic rights of all concerned shall be respected at all times. All parties will be treated with dignity and due process.

No reprisals nor retaliation shall occur as a result of good faith charges of violation of this Policy or participation in an investigation. Title IX prohibits retaliation against any individual who files a complaint under Title IX or participates in a complaint investigation.

### **Definitions**

~~For purposes of this policy,~~

**Harassment** shall consist of verbal, nonverbal, written, graphic or physical conduct relating to an individual's sex, age, race, color, sexual orientation (known or perceived), gender identity expression (known or perceived), national origin/ethnicity, religion, disability, English language proficiency, socioeconomic status and/or political beliefs. Harassment does not have to include intent to harm, be directed at a specific target, or involve repeated incidents. A single incident of harassment may implicate more than one protected class. For example, a student may be targeted because of his/her race and sexual orientation.

Harassment can create a hostile environment when it:

1. Is severe, persistent or pervasive that it affects an individual's ability to participate in or benefit from an educational program or activity or creates an intimidating, threatening or abusive educational environment.
2. Has the purpose or effect of substantially or unreasonably interfering with a student's education.
3. Otherwise adversely affects an individual's learning opportunities, safety or well-being.

**Sexual discrimination** - unequal treatment of any person on the basis of sex unless expressly authorized by statute or regulation. Sexual discrimination may include sexual harassment, sexual violence and sexual assault.

**Sexual harassment** is unwelcome conduct of a sexual nature. Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, written, graphic or physical conduct of a sexual nature.

*Examples of sexual harassment, as defined above, include but are not limited to, sexual propositions; touching of a sexual nature; graffiti of a sexual nature; displaying or distributing sexually explicit drawings, pictures or written material; sexual gestures or touching oneself sexually in front of others; telling sexual or dirty jokes; spreading*

*sexual rumors or rating other students as to sexual activity or performance; circulating or showing emails or websites of a sexual nature.*

For purposes of this policy, the term sexual harassment includes sexual violence. Sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent.[2][5]

### **Guidelines**

The Code of Student Conduct, which shall incorporate this policy, shall be disseminated annually to students.

This policy shall be accessible in every classroom, posted in a prominent location within each school building and posted on the district website. The policy shall be made available in English and all other languages necessary to facilitate understanding by district residents.

This policy shall be reviewed with every district student within ninety (90) days after the initial adoption or a revision by the SRC, and annually on the first day of school thereafter.

### **Mandated Regulatory Procedures:**

*Complaint/Grievance Procedure – Student/Third Party*

#### **Step 1 – Reporting Bullying, Harassment, or Discrimination**

A student or third party who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of the District's anti-harassment or nondiscrimination policy(s), or the parent/guardian of a student, is encouraged to immediately report the incident to the building principal or designee, or to any other member of the school staff, including teachers, guidance counselors, bilingual counseling assistants (BCAs), coaches and administrators.

A school employee who witnesses, suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the building principal or designee.

The complainant or reporting employee is encouraged to use the report form available from the building principal, but oral complaints shall be acceptable. The principal or designee shall complete the District's complaint form if the complainant chooses to make an oral or electronic report. In each building, to the extent practicable, compliant forms shall be readily available in any and all languages that are spoken by one or more students attending that school.

If the building principal is the subject of a complaint, the student, parent/guardian, third party or employee shall report the incident directly to the Title IX **Deputy** Coordinator for inquiries under this Policy:

Chief Student Support Services Officer/Title IX **Deputy** Coordinator  
440 N. Broad Street  
Philadelphia PA 19130  
215-400-4000

antiharassment@philasd.org

## **Step 2 – Investigation**

Upon receiving a complaint of harassment or sex discrimination, the building principal or designee shall take immediate and appropriate action to investigate or otherwise determine what occurred. At a minimum, the investigation shall consist of the following:

1. The investigation should consist of individual interviews with the complainant, the accused, and others with knowledge relative to the incident. The investigator may also evaluate any other information and materials relevant to the investigation.
2. The parties may present witnesses and other evidence as part of the investigation.
2. The investigator shall attempt to secure statements from all participants in, and witnesses to, the incident(s). The complainant shall not be required to meet face-to-face with the accused.
3. When a student with limited English proficiency is a party to a complaint, interpretation and/or translation services shall be provided. The limited English proficiency of a complainant, witness, or the accused is not an acceptable reason for failure to secure a statement from him or her.
4. The obligation to conduct this investigation shall not be negated by the fact that a criminal investigation of the incident is pending or has been concluded.
5. The obligation to conduct this investigation shall not be negated by the fact that the complainant cannot identify the accused.

All complaints should be forwarded and/or uploaded to the Title IX **Deputy** Coordinator for the purpose of monitoring, evaluating and providing District level support to diminish harassment.

All investigations shall be completed by the assigned investigator within fourteen (14) days from the reporting of the complaint. Extenuating circumstances for not being able to comply with the deadline must be approved by the Title IX **Deputy** Coordinator. The extension must be a specified period of time not exceeding fourteen (14) days, and must be communicated to the complainant.

The District will follow the Complaint Procedures regardless of whether the alleged harassment also is being investigated by another agency, including law enforcement, unless particular procedural steps would directly impede a criminal investigation. The District will implement appropriate interim steps during the law enforcement agency's investigation period to provide for the safety of the victim(s) and the school community and the avoidance of retaliation.

In the event that school-based staff fail to investigate a complaint of harassment or sex discrimination, fail to document the outcome of an investigation, or if violations continue after an investigation has concluded, individuals shall report the incident to the district's Title IX **Deputy** Coordinator at 215-400-4000 and/or submit a complaint to [antiharassment@philasd.org](mailto:antiharassment@philasd.org).

### **Step 3 - Investigative Report**

The building principal or designee shall prepare a written report which shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual and whether it is a violation of this policy, and a recommended disposition of the complaint.

The findings of the investigation shall be provided to the complainant, and his or her parent, if s/he is under 18 years old, the accused, and the Title IX **Deputy** Coordinator.

### **Step 4 -District Action**

If the investigation determines that the accused engaged in conduct that constitutes a violation of this policy, the District shall take prompt and effective steps reasonably calculated to end the harassment or sex discrimination, eliminate any hostile environment, remedy the discriminatory effect on the victim, and prevent the harassment or sex discrimination from recurring. When appropriate, students who have been found to violate this policy will receive instruction or training on why their actions were inappropriate and/or hurtful.

Complainants and the accused, and their parents, if they are under 18 years old, shall be notified of the final disposition/action taken by the District.

### **Appeal Procedure**

1. If the complainant or accused is not satisfied with a finding of no violation of the policy or with the recommended corrective action, s/he may submit a written appeal to the Title IX **Deputy** Coordinator(s) within fifteen (15) days of her/his receipt of written notice of final disposition/action taken. The appeal will be conducted in an impartial manner by an impartial decision-maker.
2. The Title IX **Deputy** Coordinator(s) shall review the investigation and the investigative report and may also conduct a reasonable investigation.
3. The Title IX **Deputy** Coordinator(s) shall prepare a written response to the appeal within fifteen (15) days. This time period may be extended by the Title IX **Deputy** Coordinator(s) under circumstances where winter, spring or summer break coincides with the investigatory period or for other reasonable cause. Copies of the response shall be provided to the complainant, the accused and the building principal/immediate supervisor who conducted the initial investigation.

Disciplinary actions shall be consistent with the Code of Student Conduct, SRC policies and administrative procedures **outlined in this policy**, and state and federal laws. The corrective action may include, but is not limited to, appropriate supports and interventions for students who are either victims or perpetrators of improper conduct, in accordance with District services and programs, which may include Tier II and II or Response to Instruction and Intervention (RtII); Positive Behavior Interventions & Supports (PBIS); Student Assistance Program (SAP); counseling services; parent meetings; referrals to appropriate resources outside of the District; student discipline pursuant to the Code of Student Conduct which could include suspension or expulsion; employee discipline in accordance with any applicable collective bargaining agreement or contract, including but not limited to counseling, suspension, expulsion.

If it is concluded that a student has intentionally made a false report or complaint under this policy, such student may be subject to disciplinary action.

#### Expedited Resolution of Harassment Incidents

While the SRC cautions that all incidents of harassment are hurtful to students and negatively impact the school environment, there are some harassment incidents that District employees can effectively address and resolve immediately. The investigative procedures (Steps 1-4 above) shall not apply when a District employee witnesses or receives a report of harassment and the District employee, in his/her professional judgment determines:

1. The harassment was not severe, persistent, or pervasive, and
2. The District employee is able to fully and adequately address the harassment with the target(s) (if any) and the perpetrator(s), including:
  - a. Educating the perpetrator(s) on the wrongfulness of his/her actions, identifying the harassing language and behavior involved, and referring the student for counseling, community service or imposing discipline, if appropriate, and
  - b. Speaking with the target student(s) (if any) to ensure s/he has not been a repeated target of harassment, is satisfied with the employee's response, and is notified of his/her right to file a complaint with the principal.

Whenever the Expedited Resolution process is followed, the District employee shall file a written report on the incident in accordance with the administrative procedures **outlined in this policy**.

The following are examples of harassment prohibited by this policy:

*Some students anonymously inserted offensive notes into African-American students' lockers and notebooks, used racial slurs, and threatened African-American students who tried to sit near them in the cafeteria.*

*Students mockingly refer to Asian students as "Bruce Lee", "China boy", "f\*ckm' Asian" and use racial slurs and create noises intended to reference made-up speech around Asian languages. Asian students are routinely targeted in unmonitored student-centric areas such as stairwells, hallways, bathrooms, and walking to and from school with students screaming at them with threats of harm and physical assault. One student threatens an Asian student by drawing a finger across the throat with the statement, "F\*ck you China people."*

*School employees at junior high school received reports of several incidents of anti-Semitic conduct at the school. Anti-Semitic graffiti, including swastikas, was scrawled on the stalls of the school bathroom. At the same school, a teacher caught two ninth-graders trying to force two seventh-graders to give them money. The ninth-graders told the seventh-graders, "You Jews have all of the money, give us some." At the same school, a group of eighth-grade students repeatedly called a Jewish student "Drew the dirty Jew."*

*Shortly after enrolling at a new high school, a female student had a brief romance with another student. After the couple broke up, other male and female students began routinely calling the new student sexually charged names, spreading rumors about her sexual behavior; and sending her threatening text messages and e-mails.*

*A gay high school student was called names (including anti-gay slurs and sexual comments) both to his face and on social networking sites, physically assaulted, threatened, and ridiculed because he did not conform to stereotypical notions of how teenage boys are expected to act and appear (e.g., effeminate mannerisms, nontraditional choice of extracurricular activities, apparel, and personal grooming choices).*

*Several classmates repeatedly called a student with a learning disability "stupid," "idiot," and "retard" while in school and on the school bus. On one occasion, these students tackled him, hit him with a school binder, and threw his personal items into the garbage.*

*Students yell "Speak English!" at immigrant youth at a school who speak their native language in school. In full view of other students, native born English speakers routinely mimic or otherwise make fun of immigrant students' accents and comment on how "weird" they sound.*

### **Delegation of Responsibility**

In order to maintain an educational environment that discourages and prohibits harassment and sex discrimination the SRC shall designate the Student Support Services Chief as the District's Title IX **Deputy** Coordinator to coordinate the District's efforts to comply with this policy and applicable laws and regulations.

The Title IX **Deputy** Coordinator shall:

The District shall be responsible to provide training for students and employees regarding all aspects of harassment and sex discrimination. Student training shall include the definition of harassment and sex discrimination, examples of harassment and sex discrimination, the reporting process and consequences of participating in prohibited behavior. Staff training shall include how to appropriately identify, address, and report incidents of harassment and sex discrimination.

Each staff member shall be responsible to maintain an educational environment free from all forms of harassment and sex discrimination.

Each student shall be responsible to respect the rights of his/her fellow students and district employees and to ensure an atmosphere free from all forms of harassment and sex discrimination.

The building principal or designee shall be responsible to complete the following duties when receiving a complaint of harassment or sex discrimination in accordance with the procedures listed in this policy. At a minimum, the building principal or designee shall be responsible to complete the following duties when receiving an oral or written report or complaint:

1. Inform the student or third party of the right to file a complaint and the complaint procedure, including their right to English Language interpretation and translation during all steps of the complaint procedures. Even if the student does not explicitly request interpretation, employees are encouraged to use interpretation and translation if they feel it will improve the ability to communicate accurately with the student or third party.
2. Inform the complainant that s/he may be accompanied by a parent/guardian during all steps of the complaint procedure.
3. Ensure that complainants are notified of available resources, such as counseling, health, and mental health services, and their right to file a complaint with local law enforcement.
4. Notify the complainant and the accused of the progress at appropriate stages of the procedure.
5. Refer the complainant to the Title IX **Deputy** Coordinator if the building principal is the subject of the complaint.

6. In cases involving potential criminal conduct, determine whether appropriate law enforcement authorities should be notified.

An employee or third party may utilize either the informal or formal complaint procedure.

**Informal Complaint Procedure – Employee/Third Party**

Where behaviors may be offensive and the offended party has a desire to stop the behavior(s) without resorting to the formal procedure, the employee or third party may notify the offending party directly, but is not required to do so. The employee or third party may also request a supervisor to intervene by notifying the alleged offender that the specific offensive behavior(s) will not be tolerated in the workplace. In such case, the supervisor must discuss the matter with the alleged offender, and, if warranted, require that s/he participate in non-disciplinary counseling. The supervisor shall document actions taken and inform the Chief Talent Officer in writing. Copies will also be forwarded to the Law Department of the School District of Philadelphia. The accused shall have the right of representation during his/her interview with the supervisor as required by the applicable collective bargaining agreement.

If the complainant is not satisfied with the result of the informal process, s/he may submit a formal complaint in accordance with this policy.

**Formal Complaint Procedure – Employee/Third Party**

**Step 1 – Reporting**

An employee or third party who believes s/he has been subject to conduct by any employee or third party that constitutes a violation of Policy 348 is encouraged to immediately report the incident to the building principal/immediate supervisor.

If the building principal/immediate supervisor is the subject of a complaint, the employee or third party shall report the incident directly to the Title IX Deputy Coordinator. Additionally, if the building principal/immediate supervisor is unable to conduct the investigation, the employee or third party shall report the incident directly to the Title IX Deputy Coordinator.

The complainant is encouraged to use the report form available from the building principal/immediate supervisor.

## **Step 2 – Investigation**

Upon receiving a written complaint of unlawful harassment or sex discrimination, the building principal/immediate supervisor shall immediately notify the Title IX Deputy Coordinator(s). The Title IX Deputy Coordinator(s) shall authorize the building principal/immediate supervisor to investigate the complaint, unless the building principal/immediate supervisor is the subject of the complaint or is unable to conduct the investigation.

The building principal or designee shall conduct an adequate, reliable and impartial investigation and shall provide the opportunity for each party to present witnesses and other evidence. Title IX prohibits retaliation against any individual who files a complaint under Title IX or participates in a complaint investigation.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the incident. The investigator may also evaluate any other information and materials relevant to the investigation.

The investigator shall attempt to secure statements from all participants in and witnesses to the complaint. The accused shall have the right of representation during his/her interview as required by the applicable collective bargaining agreement or district practice.

The obligation to conduct this investigation shall not be negated by the fact that a criminal investigation of the incident is pending or has been concluded, unless particular procedural steps would directly impede a criminal investigation. The investigator should coordinate with any other ongoing school or criminal investigations of the incident. The District will implement appropriate interim steps during the law enforcement agency's investigation period to provide for the safety of the victim(s) and the school community and the avoidance of retaliation.

The failure of the accused to participate in the investigation into a written complaint shall be grounds for discipline, up to and including possible discharge for cause.

All investigations shall be completed by the assigned investigator within thirty(30) days from the filing date of the complaint. Extenuating circumstances for not being able to comply with the deadline must be approved by the Title IX Deputy Coordinator(s). The extension must be

a specified period of time not exceeding twenty-five (25) days, and must be communicated to the complainant.

### **Step 3 – Investigative Report**

The building principal/immediate supervisor shall prepare and submit a written report to the Title IX Deputy Coordinator(s), which shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual and whether it is a violation of this policy, the basis for the determination, and a recommended disposition of the complaint.

The complainant and the accused shall be provided written notice of the outcome of the investigation, including the recommended disposition of the complaint. The accused shall not be notified of the individual remedies offered or provided to the complainant.

### **Step 4 – District Action**

If the investigation results in a finding that the complaint is factual and constitutes a violation of this policy, the district shall take prompt, corrective action to ensure that such conduct ceases. The district shall take steps to prevent the recurrence of prohibited conduct and to remedy the discriminatory effect on the victim or complainant and others, if appropriate. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant.

Disciplinary actions shall be consistent with SRC policies, administrative procedures, applicable collective bargaining agreements, and state and federal laws and may include counseling, suspension, reassignment or termination. The corrective action may include, but is not limited to, appropriate supports and interventions for students who are either victims or perpetrators or improper conduct, in accordance with District services and programs, which may include Tier II and II or Response to Instruction and Intervention (RtII); Positive Behavior Interventions & Supports (PBIS); Student Assistance Program (SAP); counseling services; parent meetings; referrals to appropriate resources outside of the District; student discipline pursuant to the Code of Student Conduct; employee discipline in accordance with any applicable collective bargaining agreement or contract, including but not limited to counseling, suspension, expulsion.

If it is concluded that an employee has knowingly made a false complaint under this policy, such employee shall be subject to disciplinary action, up to and including possible discharge.[11]

### **Appeal Procedure**

1. If the complainant or accused is not satisfied with a finding of no violation of the policy or with the recommended corrective action, s/he may submit a written appeal to the Title IX Deputy Coordinator(s) within fifteen (15) days of her/his receipt of written notice of final disposition/action taken. The appeal will be conducted in an impartial manner by an impartial decision-maker.
2. The Title IX Deputy Coordinator(s) shall review the investigation and the investigative report and may also conduct a reasonable investigation.
3. The Title IX Deputy Coordinator(s) shall prepare a written response to the appeal within fifteen (15) days. This time period may be extended by the Title IX Deputy Coordinator(s) under circumstances where winter, spring or summer break coincides with the investigatory period or for other reasonable cause. Copies of the response shall be provided to the complainant, the accused and the building principal/immediate supervisor who conducted the initial investigation.

No. 406

SECTION: 400 Charter Schools

TITLE: Charter **Amendments**

ADOPTED: April 24, 2014

REVISED:

## 406. CHARTER AMENDMENTS

### Authority

~~The Charter School Law (“CSL”) does not contain provisions related to the amendment of or modification to charters for brick and mortar charter schools. In August 2017, the Pennsylvania Supreme Court, in overturning the Commonwealth Court, held that the CSL does not set forth a procedure for amending the material terms of a charter nor the standard for evaluating an amendment request. Further, the Supreme Court held that the CSL does not provide for jurisdiction in the State Charter School Appeal Board (“CAB”) for appeals from a school district’s action or inaction on requested amendment. The Supreme Court recognized, however, that a charter could be amended by written agreement of the school district and the charter school.~~

The School Reform Commission (“SRC”) <sup>1</sup> recognizes that opportunities for charter schools to ~~evolve~~ grow and improve may occur outside of the renewal process. **In the absence of charter amendment provisions in the Charter School Law, the SRC establishes this policy to govern the acceptance, processing and review of mid-term charter amendment requests. Pursuant to this policy, As a result, the SRC may accept applications for material amendments of the charter agreement during the charter term. This policy as revised will apply to all charter amendment requests for implementation in the 2018-2019 school year and beyond.**

Consistent with the **School District of Philadelphia’s (“School District”)** commitment to acting as a top-quality authorizer of high-performing charter schools, this policy **will define a process by which charter schools can seek charter amendments during the charter term. This policy is designed to ensure that the charter school amendment process and decisions will be transparent, merit-based, comprehensive, and equitable.**

### Delegation of Responsibility

<sup>1</sup> Any reference herein to School Reform Commission (“SRC”) applies to any governing body or designated oversight entity for The School District of Philadelphia.

The SRC authorizes the Charter Schools Office (“CSO”) to support the charter authorizing activities of the School District. In this role, the CSO works to support all charter sector stakeholders while upholding the School District’s principles of accountability, autonomy and equity. The School District seeks to ensure that all charter school options in Philadelphia are high quality options for students and families.

Charters generally exist for a defined term of five years. During that charter term, changes in regulations, operation, ideology, or business need may cause a charter school to seek a formal amendment. The CSO will work with all charter schools expressing interest in a charter amendment, consistent with this policy, to meet the needs of the charter school and its students.

Material charter amendments submitted during the charter term require authorization by SRC resolution **and signed agreement**. Such authorized or approved amendments become effective once a written amendment to the charter has been duly executed by the School District and the charter school. The CSO shall develop administrative procedures describing the application requirements and evaluation process to be followed in reviewing each type of Material charter amendment request consistent with this policy.

### **Definitions**

For the purposes of this policy, certain applicable terms shall be defined as follows:

**Business need** – Necessary for the continued, uninterrupted and/or legally compliant operation of the charter school.

**Educational plan** – The section(s) of the charter that includes the educational philosophy, curriculum, and academic goals.

**Emergency** – Circumstances under which part or all of the current charter school facility is not fit for use or occupation as a result of a natural disaster, such as a fire or flood, or other major disruption which impacts the physical, health, and safety of students.

3. Significant change to mission, ~~program~~ or fundamental change to educational plan;
4. Name change due to business-need or legal requirement;
5. Change in building location or addition of new facility due to business-need, unavailability of current facility and/or emergency; and
6. Change in CMO.

**Mission** - The explicit or implicit mission and/or vision of the charter school as reflected in the charter. The mission reflects the purpose of the charter school including what students will be served and with what methods, what the charter school will accomplish ~~and any unique programs that will be used~~. The vision reflects a longer-term realization of the mission and the highest priorities of the charter school.

#### Timeframes for Submission of Material Charter Amendment Requests

A charter school may submit one amendment request, per type of material charter amendment, during each charter term. Additionally, in the event of business need or unforeseen emergency, a charter school may submit one amendment request, per type, per school year during the charter term, to address the business need or an unforeseen emergency.

Requests must be submitted with required documents by January 15 of the school year prior to the proposed charter amendment effective date<sup>2</sup>. In the event of an unforeseen emergency requiring an immediate change in a charter school facility or location, the charter school shall submit a charter amendment request within a reasonable period of time, and such amendment request may be approved by the SRC as a ratification of the change in facility or location.

## **Material Charter Amendment Request Process**

**The CSO shall review material charter amendment requests and consider all necessary and appropriate factors relevant to the evaluation of the proposed change, including the impact of the material charter amendment request on the charter school's ability to operate in an educationally and legally sound manner.**

**There are three identified phases of activity related to a material charter amendment request.**

### ***Phase 1 – Submission***

**The charter school develops its material charter amendment request and submits it along with the required documentation to the CSO for review in accordance with the submission guidelines in this policy.**

### ***Phase 2 – Processing***

**The CSO performs an initial review of the request to determine completeness, and the CSO may request clarifications from the charter school. The CSO will conduct this initial review within 30 calendar days after receiving a request. At this stage, the CSO will cease the evaluation process if they determine the material amendment request does not meet the eligibility for submission as defined by this policy.**

### ***Phase 3 – Review***

**The CSO identifies the submission of a request as complete and submitted in accordance with this policy, it will conduct an evaluation. The CSO notifies the SRC of the request at this stage. The CSO will complete the full evaluation and provide a recommendation in time for consideration by the governing body of the School District before the end of the school year that the request was submitted. The CSO will share its recommendation with the SRC, notify the charter school, and publicly post the recommendation report to the CSO website.**

### ***Phase 4 – Acceptance***

**The SRC, or governing body of the School District, will consider the material charter amendment request at a public meeting before the end of the school year that the request was submitted. Any decision by the SRC, or governing body of the School District, on an amendment request shall not be an adjudication and cannot be appealed to the State Charter School Appeal Board, any administrative agency or any court. Failure of the SRC, or other governing body of the School District, to act on a material charter amendment request shall not be a deemed grant of or a deemed denial of the material charter amendment request.**

SCHOOL VISITORS ADMINISTRATIVE PROCEDURES  
Attachment for Policy No. 907

**The building principal or program supervisor must grant prior approval for the visit, and shall notify the classroom teacher prior to the visit.**

**Parents/Guardians shall be limited to one (1) class period per month, per child in the school for classroom visitations, in order to minimize disruption of the classroom schedule and the educational program. Parental participation in classroom activities or programs such as room parents, back-to-school events, and chaperones for field trips shall not constitute a classroom visit for purposes of this policy.**

**In order** to minimize interruption to the instructional program and to ensure safety, no visitor may confer with a teacher or student **in school** without the approval of the **building principal or designee**.

**The building principal or program supervisor and classroom teacher have the authority to ask a visitor to leave if the visitor disrupts the classroom routine, educational program or daily schedule, or if a visitor violates SRC policy. Failure to leave when asked or repeated, documented disruptions may result in loss of classroom visitation privileges.**

**Under exceptional circumstances and upon request of the building principal, program supervisor, classroom teacher or parent/guardian, the Superintendent may authorize additional or longer classroom visits by a parent/guardian.**

Should an emergency require that a student be called to the school office to meet a visitor, the **building principal or designee** shall be present during the meeting.

No visitor shall go directly to a classroom to deliver or pick-up students or speak to teachers unless such visits have been approved previously by the **building principal or designee**. Approval for taking a student from school shall be granted only to a parent/guardian having custody unless that parent/guardian gives explicit permission in writing to release the student to a designated family member or adult.

**Failure to comply with this policy shall result in more limited access to the school as determined by the building principal, consistent with SRC policies, administrative procedures, district rules and federal and state law and regulations.**

**Building principals** shall have the right to adapt or set aside **established district rules or administrative** procedures in the event of special activities such as assembly programs, athletic events, or musical performances.

**Relevant provisions** of this policy shall be **disseminated** in **student/school handbooks, in the Code of Student Conduct, on the district's website and through other efficient methods.**

Copies of the City of Philadelphia ordinance **regarding** unauthorized entry on school premises and the **SRC** policy **on school visitors** and administrative procedures shall **also** be posted at all entrances to schools and at other appropriate places.[\[1\]](#)

Where the non school entity is a for-profit entity that will benefit commercially from an activity or distribution of its material during instructional time, other factors must outweigh the commercial benefit to the non school entity; and the SRC must approve proposals that would commercially benefit a for-profit entity.

A review of any activities or non school written materials under this policy shall not discriminate on the basis of content or viewpoint. Prohibited activities or materials will be rejected, as will any activities or materials that do not comply with SRC policy, administrative procedures, or written announcements relating to the proposed non school-sponsored activity or materials.

**Fundraising**

Fundraising by non school organizations, groups or individuals is prohibited on school property or in the name of the school.[\[2\]](#)

Charitable organizations seeking to solicit funds from students or staff throughout the district or in any of its regions shall submit a written request for approval to the Superintendent, who shall respond in writing. Requests for individual school solicitation shall be submitted in writing to the building principal who, after consultation with the Assistant Superintendent, shall respond in writing.

### **Scholarships/Awards**

The scholarship or award, and any pertinent restrictions, shall be approved by the SRC.

### **Travel Services/Foreign Trips**

Solicitation and sale of travel services for foreign trips to students may be permitted with the approval of the SRC.

**SCHOOL REFORM COMMISSION MEETING – QUESTIONS FROM THE PUBLIC & STAFF RESPONSES**  
**FEBRUARY 15, 2018**

RESOLUTION QUESTIONS	STAFF RESPONSES
<p><b>A-2</b> Categorical/Grant Fund/Operating Budget: \$1,333,000 Contract with TNTP – New Principal Coaching and Related Services</p> <p>1. What is the independent, peer-reviewed research that justifies this expenditure?</p>	<p>1. Goff et al. (2014) conducted a randomized experiment of 52 elementary and middle school principals in a large urban school district to explore if coaching, when combined with feedback from teachers, changes principals' leadership practices. 26 principals received teacher feedback and 26 principals received teacher feedback and coaching. The study found a positive effect of coaching on principals' leadership development. Specifically, coaches helped principals clarify and prioritize issues in their schools, interpret feedback from teachers, and provide skills which principals use to enhance their overall leadership. The results of this study provide strong evidence for the effectiveness of providing coaching to principals. Although this is not a study of TNTP in particular, coaching is a strong component of the SDP New Principal Academy TNTP program. (Citation: Peter Goff, J. Edward Guthrie, Ellen Goldring, Leonard Bickman, (2014) "Changing principals' leadership through feedback and coaching", Journal of Educational Administration, Vol. 52 Issue: 5, pp.682-704, <a href="https://doi.org/10.1108/JEA-10-2013-0113">https://doi.org/10.1108/JEA-10-2013-0113</a>)</p>
<p><b>A-4</b> Operating Budget: \$12,300,000 Contract Amendment with Kelly Services – Substitute Staffing and Management</p> <p><b>A-5</b> Operating Budget: \$64,000,000 Contract with Kelly Services, Inc. – Substitute Staffing and Management – 2 years</p> <p>1. What data can be shared on savings the District has seen by outsourcing to Kelly Services? To what</p>	<p>1. Kelly Services is meeting a fill rate of 85% for this school year, which is the highest fill rate over the past five years. The fill rate in the last year that substitutes were provided by SDP directly was 64%.</p> <p>2. Kelly will continue to be paid based on the number of jobs filled in the upcoming contract. We expect them to continue to increase the number of jobs filled each year. The cost of the current contract is higher than anticipated because Kelly is paid based on the number of jobs filled. We predicted cost based on a 70% fill rate, and Kelly has outpaced this rate.</p>

<p>extent has Kelly Services increased coverage compared with the District?</p> <p>2. Why is there an additional cost (\$12M above originally authorized \$42M) in payment to Kelly Services?</p>	
<p><b>A-7</b> Categorical/Grant Fund/Operating Budget: \$9,549,665 Contract with NCS Pearson – Instructional Management System</p> <p>1. Who will have access to this information within the school district? Will any organization, company, or entity have access to our students’ data from outside of the SDP? How clearly will parents be informed of data use, privacy options, and opting-out?</p>	<p>Educators- teacher/principals at a given school will only have access to data relevant to the students they teach. No one outside of the SDP will have access to this system to mine student data. Requests for limited student data must go through a rigorous research request process managed by the Office of Research and Evaluation. The District also has an extensive student data privacy website, which includes information about student data privacy contract language for all enterprise systems used by the District. <a href="http://www.philasd.org/studentdata/privacy">www.philasd.org/studentdata/privacy</a>. Information about opting out is defined in Board Policy 105. We will ensure that this information is updated on the School District website by February 28th. If this resolution is not approved, teachers will not be able to: (1) access the curriculum engine, which contains the scope and sequence for each grade and subject; (2) view their students’ achievement (i.e. reading levels, grades) and attendance information; (3) administer the benchmark tests and view results; (4) access the K-8 digital literacy curriculum, which includes Internet Safety and coding activities.</p>
<p><b>A-11</b> Categorical/Grant Fund: \$257,750 Contracts with Jounce Partners, Inc. – The New Teacher Project, Hendy Avenue Consulting – Independence Mission Schools</p> <p>1. Please provide the data and independent, peer-reviewed research that supports the selection of these questionable organizations as the recipient of our school district dollars.</p>	<p>1. Under Federal rules, a certain percentage of Title II funds are allocated to the Independence Mission Schools. Under Federal guidelines they are required to conduct a competitive process (which they did) and select a vendor that meets their requirements (which they did) and then we fund those contracts. The District does not choose the vendors.</p>
<p><b>B-9</b> Categorical/Grant Fund: \$15,744,226.38 Contract with Children’s Literacy Initiative – Early Literacy Specialists 2018-2019</p>	<p>1. National research supports teacher coaching in early literacy. Literacy coaching is an effective professional development model, especially for teachers working in urban districts (Blackowicz et al., 2005; Cantrell &amp; Hughes, 2008; Marsh et al., 2008; Sailors &amp; Price, 2010). In particular, literacy coaching has been found to be an effective way to mitigate some of</p>

<p>1. What data supports spending this amount of money on an initiative? Please supply the data to justify using this money on an outside agency rather than beginning to restore our libraries and librarians.</p>	<p>the harmful effects of high teacher and student turnover endemic to large, urban school districts (Allensworth, et al., 2009; Reichardt, 2008) Literacy coaching is linked to increases in early literacy outcomes. Results from a four-year longitudinal study of a literacy coaching program found students in Kindergarten to 2nd grade experienced literacy gains that were 16% higher in Year 1 and 32% higher in Year 3 than literacy growth in the baseline year (Biancarosa et al., 2010).</p> <p>2. Research suggests timespan and duration are effective components of successful professional development. The ORE conducts yearly teacher surveys regarding this initiative, the results suggest coaching is supported and effective. In addition, student achievement results have increased. The contract with CLI supplements our Summer Literacy Institute and together this initiative provides teachers with 35 hours of focused early literacy professional development along with ongoing job-embedded coaching support from a school-based early literacy specialist.</p> <p>3. If this resolution is not approved, the District will not be able to provide Anchor Goal 2 teacher professional development and early literacy teacher coaching to elementary schools (currently all 150 elementary schools have full-time coaching support for their teachers). The District will also be required to return approximately \$2M in grant funds to the William Penn Foundation for the Early Literacy Summer Institute, which is conditioned upon elementary schools continuing to receive coaching support in 2018-19.</p>
<p><b>B-12</b> Various Funds: \$10,000,000 Contracts with Various Vendors – Online Courses and Adaptive Instructional Programs – Subject to Funding</p> <p>1. Please provide the independent, peer-reviewed research that supports this resolution.</p> <p>2. Please give some indication of how widely used the programs are in the school district, and for what subjects? Please answer in whatever way you wish - the number of schools, number of teachers,</p>	<p>1. This resolution includes contracts for programs for online courses and adaptive instructional programs that support teachers in providing differentiated instruction to meet the individual needs of students. There is a research base for both approaches. For example, a peer-reviewed randomized controlled trial on the effects of an Algebra I online course for 8th grade students conducted by researchers at AIR found a statistically significant positive effect of participating in the online courses. This study was rated by the What Works Clearinghouse as meeting standards without reservations (<a href="https://ies.ed.gov/ncee/wwc/Docs/QuickReview/algebra_032712.pdf">https://ies.ed.gov/ncee/wwc/Docs/QuickReview/algebra_032712.pdf</a>).</p>

<p>etc.</p> <ol style="list-style-type: none"> <li>3. Why did some of the vendors (Redbird Advanced Learning, Compass Learning, Defined Learning, Edmentum, Edcurious Partners, Fuel Education, Mind Research Institute, R.E. Reinert &amp; Associates, Suntex International, and Think Through Learning) who received contracts in 2015 not receive contracts this time? Did they apply again and were rejected, or did they not apply again?</li> <li>4. Can the reports of the evaluation committee from 2015 and the current round please be made available?</li> </ol>	<p>Adaptive instructional programs (also known as intelligent tutoring systems) are also supported by research. For example, a meta-analysis on intelligent tutoring systems published in the Journal of Educational Psychology (<a href="https://www.apa.org/pubs/journals/features/edu-a0037123.pdf">https://www.apa.org/pubs/journals/features/edu-a0037123.pdf</a>) found significant, positive mean effect sizes regardless of whether the system was used as the principal means of instruction, a supplement to teacher-led instruction, an integral component of teacher-led instruction, or an aid to homework.</p> <ol style="list-style-type: none"> <li>2. The program that were purchased from 2015 forward are primary for English/Language Arts and Math subjects. There are 39 schools in Blended Learning Initiative. There are 42 schools in the Algebra-Readiness Initiative. There are 20 schools in the Turnaround network and all use iReady to support the integration of online learning to support teacher lead instruction.</li> <li>3. Some of the above vendors did not apply for this opportunity and some vendors did not meet the District's RFP evaluation. This RFP evaluation was conducted by a cross functional team including staff from: Office of Research and Evaluation, Office of Information Technology, Office of Curriculum and Instruction, Office of Special Education, Opportunity Network, High School Office and Office of Multilingual programs.</li> <li>4. We will make the evaluation of the 2015 RFP available. This will be retrieved from Procurement. The current responses are still pre-deliberation and pre-decisional until the SRC votes.</li> </ol> <p>If this resolution is not approved, schools will not be able to select pre-screened evidence-based online tools during the school budget process. The District engaged in an extensive process to evaluate interested vendor products for content, functionality, and alignment with curriculum and technology specifications. The process also included a review of the existing research on each tool. As a result of this process, the District has negotiated pricing with each eligible vendor that schools can use to purchase that also meets the ESSA requirements for using evidence-based interventions and approaches.</p> <p>Schools will purchase these online tools. The \$10M is the total maximum amount</p>
---	---

	that can be spent on these products over the next to years.
