DURING

FOR THE SAFETY OF ALL STUDENTS, DURING A SCHOOL-WIDE INCIDENT PARENTS ARE:

- Asked to cooperate with school officials and emergency personnel

Universal Emergency Response Procedures

Evacuation: Students take the closest and safest way out as posted. This is used when conditions outside the school are safer than conditions inside.

Reverse Evacuation: Students are moved as quickly as possible back into the school building. This is used when conditions inside the school are safer than conditions outside.

Lockdown - All school entry points are locked. Students are cleared from the halls immediately and report to the nearest available classroom. No entry or exit of the school is allowed.

Shelter-in-Place: Students are cleared from the halls immediately and report to the nearest available classroom or designated location.

AFTER

Parent/Guardian/Child Reunification

In the event that a school incident requires the emergency release of students, every possible effort will be made to contact parents and/or guardians.

When authorized by School District or Public Safety Officials, the school's staff will initiate the **orderly** release of students to parents and/or guardians.

In order for students to be released to parents or emergency contact person, they must:

- Be listed on the Emergency Contact Card (EH-4/Blue Card) **and**
- Present valid state issued photo identification to school staff
