

School Selection Non-Participating Schools

School Selection is the application process for children to attend a school with available space that is outside their school catchment area. Many schools have available space and can accommodate students who are not assigned to their catchment. In catchment schools, priority is given to the students who live in the catchment area and, to secure sufficient space for in-catchment students, the schools cannot receive out-of-catchment.

Below are the schools that do not have space for out-of-catchment students and are **NOT** participating in this year's school selection process. They are not shown in the application.
