## **COVID-19 Transportation Guidance**

1. Our buses will be disinfected with diluted germicidal bleach applied with a pressurized sprayer by the mechanic, before and after the Am & Pm runs.
2. We will also be keeping keys in all buses so the drivers do not have to enter the office. We can have contact with them thru the CB radio. If they need to come into the office, the door will be locked so no more than 1 person at a time will enter.
3. Drivers and Students will be required to wear a mask on the bus at all times. We will keep additional masks on every bus in case one is needed by the Driver or Students.
4. We will label every seat that is not to be sat on with an X, to ensure students are social distancing while on the bus.
